

**VIT**<sup>®</sup>

---

**Vellore Institute of Technology**

(Deemed to be University under section 3 of UGC Act, 1956)

# **SCHOOL OF SOCIAL SCIENCES AND LANGUAGES**

## **B. Com - Commerce**

**Curriculum**

**(2020 - 2021 admitted students)**

## **VISION STATEMENT OF VELLORE INSTITUTE OF TECHNOLOGY**

VIT will impart futuristic education in multidisciplinary areas and instill high patterns of discipline through our dedicated staff, who shall set global standards, making our students cognitively superior and ethically strong, who in turn shall improve the quality of life of the human race.

## **MISSION STATEMENT OF VELLORE INSTITUTE OF TECHNOLOGY**

- **World class Education:** Excellence in education, grounded in ethics and critical thinking, for improvement of life.
- **Cutting edge Research:** An innovation ecosystem to extend knowledge and solve critical problems.
- **Impactful People:** Happy, accountable, caring and effective workforce and students.
- **Rewarding Co-creations:** Active collaboration with national & international industries & universities for productivity and economic development.
- **Service to Society:** Service to the region and world through knowledge and compassion.

## **VISION STATEMENT OF THE SCHOOL OF SOCIAL SCIENCES AND LANGUAGES**

- To be a centre of academic excellence by fostering holistic growth and development in students.

## **MISSION STATEMENT OF THE SCHOOL OF SOCIAL SCIENCES AND LANGUAGES**

- To mould students from different cross-sections of society by enhancing professional competence, self - confidence and positive attitude that would help in the economic development of the nation
- To disseminate knowledge in the academic stream relating to commerce with innovative teaching learning processes.
- To inspire and empower the students from diverse backgrounds to become innovative leaders and entrepreneurs who contribute to the betterment of society with ethical and social responsibility.

## **B. Com- Commerce**

### **PROGRAMME EDUCATIONAL OBJECTIVES (PEOs)**

1. Graduates will function in their profession with social awareness and responsibility
2. Graduates will interact with their peers in other disciplines in their work place and society and contribute to the economic growth of the country
3. Graduates will be successful in pursuing higher studies in their chosen field

## **B. Com - Commerce**

### **PROGRAMME OUTCOMES (POs)**

- PO\_01: Having a clear understanding of subject related concepts and contemporary issues.
- PO\_02: Having the ability for Financial Planning, analysis, control and decision making.
- PO\_03: Having an ability to understand concepts of taxation and the legal aspects of business.
- PO\_04: Having critical thinking skills and adaptability relating to the business context and entrepreneurial development
- PO\_05: Having a clear understanding of professional integrity and ethical responsibility
- PO\_06: Having a good proficiency of communicating in English
- PO\_07: Having interest in lifelong learning

## **B. Com - Commerce**

### **PROGRAMME SPECIFIC OUTCOMES (PSOs)**

On completion of B. Com (Commerce) Programme, graduates will be able to:

- PSO1: To develop proficiency in various facets of management and accounting activities.
- PSO2: To enable students to acquire practical skill sets in the fields of accounting, entrepreneurship and taxation with modern software to work as Tax consultants, Audit assistants and other financial support services like BPO, KPO.

2.	<u>Phil Lapworth</u> , <u>An Introduction to Transactional Analysis</u> , 2011, Sage Publications (CA)		
<b>Mode of Evaluation:</b> FAT, Assignments, Projects, Case studies, Role plays,3 Assessments with Term End FAT (Computer Based Test)			
Recommended by Board of Studies		09-06-2017	
Approved by Academic Council		No. 45	Date 15-06-2017

Course code	Course title	L	T	P	J	C
STS1012	Introduction to Business Communication	3	0	0	0	1
Pre-requisite	None	Syllabus version				
		2				
<b>Course Objectives:</b>						
<ul style="list-style-type: none"> <li>To provide an overview of Prerequisites to Business Communication.</li> <li>To enhance the problem solving skills and improve the basic mathematical skills.</li> <li>To organize the thoughts and develop effective writing skills.</li> </ul>						
<b>Expected Course Outcome:</b>						
1. Enabling students enhance knowledge of relevant topics and evaluate the information						
<b>Module:1</b>	<b>Study skills</b>	<b>10 hours</b>				
<b>Memory techniques</b>						
Relation between memory and brain, Story line technique, Learning by mistake, Image-name association, Sharing knowledge, Visualization						
<b>Concept map</b>						
Mind Map, Algorithm Mapping, Top down and Bottom Up Approach						
<b>Module:2</b>	<b>Emotional Intelligence (Self Esteem )</b>	<b>6 hours</b>				
<b>Empathy</b>						
Affective Empathy and Cognitive Empathy						
<b>Sympathy</b>						
Level of sympathy (Spatial proximity, Social Proximity, Compassion fatigue)						
<b>Module:3</b>	<b>Business Etiquette</b>	<b>9 hours</b>				
<b>Social and Cultural Etiquette</b>						
Value, Manners, Customs, Language, Tradition						
<b>Internal Communications</b>						
Open and objective Communication, Two way dialogue, Understanding the audience						
<b>Planning</b>						
Identifying, Gathering Information, Analysis, Determining, Selecting plan, Progress check, Types of planning						
<b>Writing press release and meeting notes</b>						
Write a short, catchy headline, Get to the Point –summarize your subject in the first paragraph, Body – Make it relevant to your audience						
<b>Module:4</b>	<b>Quantitative Ability</b>	<b>4 hours</b>				
<b>Numeracy concepts</b>						
Fractions, Decimals, Bodmas, Simplifications, HCF, LCM, Tests of divisibility						
<b>Beginning to Think without Ink</b>						
Problems solving using techniques such as: Percentage, Proportionality, Support of answer choices, Substitution of convenient values, Bottom-up approach etc.						
<b>Math Magic</b>						
Puzzles and brain teasers involving mathematical concepts						
<b>Speed Calculations</b>						
Square roots, Cube roots, Squaring numbers, Vedic maths techniques						
<b>Module:5</b>	<b>Reasoning Ability</b>	<b>3 hours</b>				
<b>Interpreting Diagramming and sequencing information</b>						
Picture analogy, Odd picture, Picture sequence, Picture formation, Mirror image and water image						
<b>Logical Links</b>						
Logic based questions-based on numbers and alphabets						

<b>Module:6</b>	<b>Verbal Ability</b>	<b>3 hours</b>	
<b>Strengthening Grammar Fundamentals</b> Parts of speech, Tenses, Verbs( Gerunds and infinitives) <b>Reinforcements of Grammar concepts</b> Subject Verb Agreement, Active and Passive Voice, Reported Speech			
<b>Module:7</b>	<b>Communication and Attitude</b>	<b>10 hours</b>	
<b>Writing</b> Writing formal & informal letters, How to write a blog & knowing the format, Effective ways of writing a blog, How to write an articles & knowing the format, Effective ways of writing an articles, Designing a brochures <b>Speaking skills</b> How to present a JAM, Public speaking <b>Self managing</b> Concepts of self management and self motivation, Greet and Know, Choice of words, Giving feedback, Taking criticism			
<b>Total Lecture hours</b>		<b>45 hours</b>	
<b>Text Book(s)</b>

Course code	Course title	L	T	P	J	C
ENG1911	General English-I	1	0	2	0	2
Pre-requisite	Cleared EPT/English for Beginners	Syllabus version				
		1				
<b>Course Objectives:</b>						
<ol style="list-style-type: none"> <li>1. To synthesize information, analyze simple arguments, generate and express their own opinions on a limited range of technical as well as general-interest topics inside as well as outside the classroom.</li> <li>2. To develop competencies in all the areas of LSRW skills</li> <li>3. To speak and write in grammatically error-free English with the aid of active vocabulary.</li> </ol>						
<b>Expected Course Outcome:</b>						
<ol style="list-style-type: none"> <li>1. Develop communicative competence to express himself/herself in English in all challenging situations</li> <li>2. Apply knowledge, ideas and concepts in the technicalities of proper pronunciation, Grammatical structure</li> <li>3. Have better grasp over appropriate use and style of the English Language as well as the application areas of English communication</li> <li>4. Write all types of official Letters/Emails used in the corporate world</li> <li>5. Interpret text, diagram etc. which helps them in their academic as well as professional career.</li> </ol>						
<b>THEORY</b>						
<b>Module:1</b>	<b>Grammar and Vocabulary</b>					<b>4 Hours</b>
Grammatical & structural aspects covering -Types of sentences, Active & Passive Voice, Tenses, WH- Question Tags, Gerund, Auxiliaries & Modal Verbs, Preposition Vocabulary: Synonyms, Antonyms, Homonyms, Homophones Activity: Solving Worksheets of Grammar; Enhancing the knowledge of vocabulary through written interpretation and reading English newspapers/magazines						
<b>Module:2</b>	<b>Text-based Analysis</b>					<b>6 Hours</b>
Two short-stories-i) <i>A Tiger in the House</i> by Ruskin Bond; ii) <i>Real Time</i> by Amit Chaudhury Activity: Understanding sentence structures and enriching vocabulary by analyzing a text						
<b>Module:3</b>	<b>Job-related Communication</b>					<b>3 Hours</b>
Writing resumes, Job-application & Thank-you letters. Activity: An in-depth discussion on the different types of resumes, Job- application and Thank-you letters.						
<b>Module-4</b>	<b>Reading Skills</b>					<b>2 Hours</b>
Skimming, scanning, guessing unfamiliar words from context, understanding text organization, recognizing argument and counter-argument; distinguishing between main information and supporting detail, fact and opinion, hypothesis versus evidence; summarizing and note-taking Activity: Reading of Newspapers & Articles in the class						
<b>PRACTICE SESSIONS</b>						
<b>Activity-1</b>	<b>Listening Comprehensions</b>					<b>4 hours</b>
Listening & Note Making: Short speeches/ news clips from Indian TV channels in English with						

interpretive questions Session: Summarizing/ note-making and drawing inferences		
<b>Activity-2</b>	<b>Introduction to Phonetics</b>	<b>4 hours</b>
Speech Sounds – Vowels and Consonants – Minimal Pairs- Consonant Clusters- Past Tense Marker and Plural Marker Session: Learning varied types of speech sounds		
<b>Activity-3</b>	<b>Public Speaking: Two Models</b>	<b>6 hours</b>
<p>i) The interactional model of public speaking which includes encoding, decoding and feedback.</p> <p>ii) The transactional model of public speaking takes on a more mutual communication effort between the sender and receiver wherein both seek to find mutual meaning in the message.</p> <p>Session: The learners watch different videos on Public speaking and accordingly engage themselves in planning and preparing speeches that inform, persuade, or fulfill the needs of a special occasion.</p>		
<b>Activity-4</b>	<b>Skit on Social issues / Debate</b>	<b>6 hours</b>
<p>To highlight the use of functional English which helps the students to learn the usage of language in different occasions</p> <p>Session: Under the supervision of the Instructor and the audio-visual materials, the students will enact small skit on social issues and learn different expressions used for various situations like getting to know someone, introducing someone etc.; they will also hone their oratory power and argumentative skills by taking part in debates</p>		
<b>Activity-5</b>	<b>Reading E-books through Intonation</b>	<b>4 hours</b>
<p>Intonation refers to the way the reader varies the voice in tone, pitch, and volume to reflect the meaning of the text--sometimes called "expression."</p> <p>Session: Students learn to read E-books properly with the appropriate use of intonation</p>		
<b>Activity-6</b>	<b>Information Transfer</b>	<b>6 hours</b>
<p>Information transfer, or presenting verbal account of facts and processes in pictorial form and, conversely, changing Web-based graphic representations to writing, involves learning how to restate a given body of material in different ways.</p> <p>Session: The learners will be interpreting the information in different forms like tree diagrams, bar charts, pie charts</p>

<b>Approved by Academic Council</b>	No. 55	Date 13-06-2019

Course code	Course title	L	T	P	J	C
ENG1912	General English-II	1	0	2	0	2
Pre-requisite	General English-I	Syllabus version				
		1				
<b>Course Objectives:</b>						
<ol style="list-style-type: none"> <li>To provide resources for the students to learn pronunciation of the English sounds through the knowledge of syllable-break-up and stress; and to know the advance level English grammar and vocabulary</li> <li>To learn to appear for personal interview and to participate in Group Discussions</li> <li>To develop the students' reading skills to enable them to skim an adapted text for main idea, to scan the text for specific information, to interpret and for inferences</li> </ol>						
<b>Course Outcome:</b>						
<ol style="list-style-type: none"> <li>Communicate effectively in medium level interview and group-discussions;</li> <li>Develop the listening skills so as to understand and apply specific information from the source;</li> <li>Use English appropriately in their professional and academic environment</li> <li>Improve the Grammar writing skills to enable the students to respond to input provided through training so as to stimulate, to select and to summarize information in Technical Reports and apply acquired information to a specified task like Transcoding, writing letters etc.</li> <li>Develop the overall personality and to hone the leadership qualities of the learners</li> </ol>						
<b>THEORY</b>						
<b>Module:1</b>	<b>Advanced-level Grammar</b>	<b>5 hours</b>				
Simple, Compound and Complex Sentences, Phrases-Adjective Phrases, Adverb Phrases, Noun Phrases, Direct and Indirect Speech, Conditionals, Concord, Punctuation Vocabulary building: Idioms Activity: Grammar Worksheet						
<b>Module:2</b>	<b>Professional Dialogues</b>	<b>2 hours</b>				
Formal Conversations – at the office with the CEO/ with the Registrar of a University/ Introducing oneself at an interview panel Activity: Role play [students practice short formal conversations in pairs/groups of 5-6]						
<b>Module:3</b>	<b>Drafting</b>	<b>4 hours</b>				
Notice, Circular, Resolution & Minutes, Business letter writing- Offer letter, quotation, status enquiry, Confirmation, Execution, Refusal and cancellation of order, recommendation, credit collection, claim, bank loan Activity: Worksheets						
<b>Module:4</b>	<b>Text-based Analysis</b>	<b>4 hours</b>				
<i>You Can Win</i> by Shiv Khera Activity: Skimming, scanning, guessing unfamiliar words from context; summarizing/note making & drawing inferences from the Text						
<b>PRACTICE SESSIONS:</b>						

<b>Activity-1</b>	<b>Listening Comprehension for General Details</b>	<b>2 hours</b>
Listening Comprehension Tests; Testing Exercises Session: Students will reflect back what they hear from the videos, which help them to be understood.		
<b>Activity-2</b>	<b>Syllable structure; Word stress</b>	<b>4 hours</b>
Structure of Syllables – Word Stress– Weak Forms and Strong Forms –Tone & Rhythm Session: Practicing basic rules of word accent - Stress shift - Weak forms and Strong forms- Sentence Stress		
<b>Activity-3</b>	<b>Verbal &amp; Non-Verbal Communication</b>	<b>6 hours</b>
Exposure to videos of structured talks delivered by leaders across all domain - Presentation Skills- Non-verbal Communication Session: Students will make short speeches by watching relevant TED-Talk videos –PPT presentations by students communicating non-verbally in a pair/group		
<b>Activity-4</b>	<b>Features of Good Conversation</b>	<b>4 hours</b>
Strategies for effective Communication and the use of polite language through the aid of audio-visual materials. Session: Making requests and seeking permissions, Telephone etiquette, Participating in Case-study based Group Discussions		
<b>Activity-5</b>	<b>Report Writing &amp; Transcoding</b>	<b>8 hours</b>
Report writing format; Essential qualities of technical writing; Data interpretation & Transcoding; logical and analytical reasoning questions Session: Students write a Report; they interpret graphs of medium level difficulty		
<b>Activity-6</b>	<b>Leadership Development</b>	<b>6 hours</b>
The focus will be on individual, group and organization factors associated with leadership. Session: Students will be acquainted with the development of the conception of leadership and in the process would hone their vocabulary and conversational power, by watching videos of leaders delivering Lectures; Seminars conducted by Administrative Heads of various Schools/ Departments within the University.		
		<b>Total Practical hours: 45 hours</b>
<b>Text Book/ Work Book</b>

Course code	Course title	L	T	P	J	C
ENG1913	Effective Communication Skills	1	0	2	0	2
Pre-requisite	General English-II	Syllabus version				
		v.1				
<b>Course Objectives:</b>						
<ol style="list-style-type: none"> <li>To be an independent/ a competent speaker in all areas of written and spoken communication for successful business/ professional interactions.</li> <li>To organize, compare and contrast, categorize and describe complex content.</li> <li>To speak and write with fluency and confidence, with minor grammatical errors and with a fairly wide active vocabulary.</li> </ol>						
<b>Course Outcome:</b>						
<ol style="list-style-type: none"> <li>Acquire an effective command over the language, though with minor inaccuracies</li> <li>Understand complex theories of varied subjects and understand detailed logic &amp; reasoning</li> <li>Perform well in middle to upper-end placement interviews/ competitive exams/ general social situations</li> <li>Participate actively and independently in seminars/discussions</li> <li>Understand the requisite proficiency for difficult/ varied levels of communications in BBC/UK &amp; CNN/US accents</li> </ol>						
<b>THEORY</b>						
<b>Module:1</b>	<b>Verbal-Logic &amp; Reasoning</b>					<b>4 hours</b>
Verbal reasoning tests assess the learner's understanding and comprehension skills. Activity: Interpreting short texts.						
<b>Module:2</b>	<b>The Art of Paraphrasing</b>					<b>2 hours</b>
A restatement of the meaning of a text or passage using other words. Activity: Paraphrasing different articles & Research papers						
<b>Module:3</b>	<b>Text-based Analysis</b>					<b>6 hours</b>
<i>The Thousand Faces of Night</i> by Githa Hariharan Activity: Summarizing/ note making & drawing inferences from the text						
<b>Module:4</b>	<b>Research Paper Writing</b>					<b>3 hours</b>
Structure of a Research paper; Plagiarism Activity: Practice on Research Paper writing.						
<b>PRACTICE-SESSIONS</b>						
<b>Activity-1</b>	<b>Vocalics</b>					<b>4 hours</b>
The learners will undergo training in vocalics which are rate, or speed at which the person speaks, pitch, inflection and variety in the voice, volume, being loud or soft, and articulation and pronunciation, or how correctly and clearly the person speaks. Session: Type the learners will undergo training in vocalics						
<b>Activity-2</b>	<b>Travel blogs / E-Travel Diary</b>					<b>6 hours</b>
Briefing on the art of writing travel blogs. Session: The learners will engage in writing relevant blogs						
<b>Activity-3</b>	<b>Video-conference and Interview</b>					<b>8 hours</b>
Preparing the students for Interviews. Session: Students will participate in mock-Interviews and real-time video-conference						
<b>Activity-4</b>	<b>Language Sensitivity &amp; Cross Cultural Communication</b>					<b>4 hours</b>
Meaning & importance of Cross Cultural Communication; Understanding Inter and Cross-Cultural Communication Nuances through relevant videos & case-studies Session: Students will attempt a case study on cross-cultural communication						

<b>Activity-5</b>	<b>Mass-Media Communication</b>	<b>2 hours</b>
<p>Briefing on the constituents of mass media such as newspapers, magazines, films/documentaries, radio, television, the mechanism of conveying information to a mass-audience and an academic investigation of the different methods of mass correspondence</p> <p>Activity: An advanced understanding of news media and their role in the society and relevant media education through the mode of note-making &amp; interpretive exercises</p>		
<b>Activity-6</b>	<b>Writing Abstract/Summary/Articles</b>	<b>6 hours</b>
<p>Equip participants with skills in writing and presenting effective and successful Abstract/ Summary. The participants will also acquire skills in writing quality Articles which can engage the audience.</p> <p>Session: Each individual student will submit an Article under the guidance of the course-Instructor</p>		
		<b>Total Lecture hours: 45 hours</b>

HUM1032	ETHICS AND VALUES	2	0	0	0	2
Pre-requisite	Nil	Syllabus version				
		1.1				
<b>Course Objectives:</b>						
1. To understand and appreciate the ethical issues faced by an individual in profession, society and polity						
2. To understand the negative health impacts of certain unhealthy behaviors						
3. To appreciate the need and importance of physical, emotional health and social health						
<b>Expected Course Outcome:</b>						
Students will be able to:						
1. Follow sound morals and ethical values scrupulously to prove as good citizens						
2. Understand various social problems and learn to act ethically						
3. Understand the concept of addiction and how it will affect the physical and mental health						
4. Identify ethical concerns in research and intellectual contexts, including academic integrity, use and citation of sources, the objective presentation of data, and the treatment of human subjects						
5. Identify the main typologies, characteristics, activities, actors and forms of cybercrime						
<b>Module:1</b>	<b>Being Good and Responsible</b>	<b>5 hours</b>				
Gandhian values such as truth and non-violence – Comparative analysis on leaders of past and present – Society’s interests versus self-interests - Personal Social Responsibility: Helping the needy, charity and serving the society						
<b>Module:2</b>	<b>Social Issues 1</b>	<b>4 hours</b>				
Harassment – Types - Prevention of harassment, Violence and Terrorism						
<b>Module:3</b>	<b>Social Issues 2</b>	<b>4 hours</b>				
Corruption: Ethical values, causes, impact, laws, prevention – Electoral malpractices; White collar crimes - Tax evasions – Unfair trade practices						
<b>Module:4</b>	<b>Addiction and Health</b>	<b>5 hours</b>				
Peer pressure - Alcoholism: Ethical values, causes, impact, laws, prevention – Ill effects of smoking - Prevention of Suicides; Sexual Health: Prevention and impact of pre-marital pregnancy and Sexually Transmitted Diseases						
<b>Module:5</b>	<b>Drug Abuse</b>	<b>3 hours</b>				
Abuse of different types of legal and illegal drugs: Ethical values, causes, impact, laws and prevention						
<b>Module:6</b>	<b>Personal and Professional Ethics</b>	<b>4 hours</b>				
Dishonesty - Stealing - Malpractices in Examinations – Plagiarism						
<b>Module:7</b>	<b>Abuse of Technologies</b>	<b>3 hours</b>				
Hacking and other cyber crimes, Addiction to mobile phone usage, Video games and Social networking websites						
<b>Module:8</b>	<b>Contemporary issues:</b>	<b>2 hours</b>				
Guest lectures by Experts						
<b>Total Lecture hours</b>						<b>30 hours</b>
<b>Reference Books</b>

<b>MAT1012</b>	<b>Statistical Applications</b>	<b>2</b>	<b>0</b>	<b>2</b>	<b>0</b>	<b>3</b>
<b>Pre-requisite</b>	None	<b>Syllabus Version</b>				
		1.0				
<b>Course Objectives:</b>						
[1] This course provides the meaning and scope of Statistical Applications.						
[2] This enables the students to understand and use statistics in real-world problems.						
[3] This course imparts comprehensive knowledge on data collection, presentation of data, pictorial representation, and measures of central tendency, measures of dispersion, control charts, correlation, regression, time series, probability, estimation and inference.						
<b>Expected Course Outcome :</b>						
After completion of the course, a student will be able to						
[1] Organize, present and interpret statistical data, both numerically and graphically.						
[2] perform regression analysis, and compute and interpret the coefficient of correlation						
[3] use various methods to compute the probabilities of events						
[4] Analyse and interpret data using appropriate statistical hypothesis and parametric testing techniques.						
[5] apply statistical quality control techniques						
[6] implement SPSS code for statistical data						
<b>Module:1</b>	<b>Introduction to Statistics and Data Collection</b>	<b>5 hours</b>				
Importance of statistics, concepts of statistical population and a sample - Methods of scales - Random and Non -Random Sampling - quantitative and qualitative data - Measurement						
nominal, ordinal, interval and ratio - Primary and secondary data- Classification and tabulation of data. Diagrammatic and graphical representation of data-Histograms and Frequency Polygons.						
<b>Module:2</b>	<b>Describing Business Data</b>	<b>5 hours</b>				
Measures of Central tendency- Mean, median and mode- Measures of Dispersion, Range, Quartile deviation, Mean Deviation, Standard Deviation-The coefficient of Variation.						
<b>Module:3</b>	<b>Correlation and Regression Analysis</b>	<b>4 hours</b>				
The Scatter Plot- Correlation-Types-Karl Pearson's Coefficient of Correlation-Spearman's						
Rank Correlation -Regression lines and coefficients- the coefficient of Determination- Residuals-the standard error of Estimate.						
<b>Module:4</b>	<b>Probability</b>	<b>4 hours</b>				
Probability, Random experiments, trial, sample space, events. Approaches to probability - of classical, empirical, subjective and axiomatic. Theorems on probabilities of events. Addition rule of probability. Conditional probability, independence of events and multiplication rule probability. Bayes theorem and its applications.						
<b>Module:5</b>	<b>Testing of Hypothesis</b>	<b>5 hours</b>				
Testing of Hypothesis – Z- test, Student's t- test, F-test, Chi-square test.						
<b>Module:6</b>	<b>Statistical Quality Control Charts</b>	<b>5 hours</b>				
Statistical Quality Control Charts- Introduction - Types of Control Charts – Setting up a Control Procedure – X bar (Mean) Chart and R Chart–c Chart–p Chart–Advantages and Limitations of Control Charts.						

<b>Module:7</b>	<b>Contemporary Issues</b>	<b>2 hours</b>	
<b>Total Lecture hours</b>			
		<b>30 hours</b>	
<b>Text Book(s)</b>

		1.1				
<b>Course Objectives</b>						
The course is aimed at						
<ul style="list-style-type: none"> <li>To make students understand and appreciate the unity of life in all its forms and the implications of life style on the environment.</li> <li>To broaden the understanding of global climate changes and the importance of renewable sources of energy.</li> <li>To give students a basic understanding of the major causes of environmental degradation on the planet, with specific reference to Indian situation.</li> <li>To inspire students to find ways in which they can contribute personally and professionally to prevent and rectify environmental problems.</li> </ul>						
<b>Expected Course Outcome:</b>						
Students will be able to						
<ol style="list-style-type: none"> <li>Know the importance of environment and awareness on natural resources to find the causes, effects and the consequences if not protected.</li> <li>Acquire knowledge on renewable and non-renewable energy resources to solve the future problems on energy demand.</li> <li>Enriching the understanding of the need for eco-balance and importance of biodiversity conservation.</li> <li>Identify the numerous causes for environmental pollutions, hazards, their management and control methods.</li> <li>Find ways to protect the environment on global climatic changes and their mitigation.</li> <li>Recognise some of the social issues and gaining knowledge on the protection of environment.</li> <li>Develop adequate knowledge on population which enabling them to make better in life decisions as well as enter a career in an environmental profession or higher education.</li> </ol>						
<b>Module:1</b>		<b>Environment and Natural Resources</b>				<b>7 hours</b>
Definition, scope, importance; need for public awareness on natural resources Forest resources – use, exploitation, causes and consequences of deforestation. Water resources – use of surface and subsurface water; dams - effect of drought, water conflicts. Land resources - Land degradation, soil erosion and desertification. Indian Case studies. Food resources – Definition, world food problems, Traditional and modern agriculture and its impacts and remedies.						
<b>Module:2</b>		<b>Energy Resources</b>				<b>7 hours</b>
Definition for renewable and non-renewable energy resources. Non-renewable energy resources - oil, Natural gas, Coal, Nuclear energy. Renewable energy - Solar energy, Hydroelectric power, Ocean thermal energy, Wind and geothermal energy. Biomass energy and Bio Gas.						
<b>Module:3</b>		<b>Ecosystem and Biodiversity</b>				<b>5 hours</b>
Concept of ecosystem, Structure and functions of an ecosystem, Food chains, food webs. Energy flow in an ecosystem, ecological pyramids and ecological succession. Case studies: Bio magnification of DDT. Biodiversity-Bio-geographical classification of India, hotspots, values of biodiversity. Threats to biodiversity - Case study. Conservation of bio-diversity. GM Crops						
<b>Module:4</b>		<b>Environmental changes and Remediation</b>				<b>6 hours</b>
Air, water, soil, Thermal Pollution: Causes, effects and control measures; Nuclear hazard. Solid waste Management- Causes, Effects and control measures. Floods, earthquakes, cyclones, tsunami and landslides, Case studies.						

<b>Module:5</b>	<b>Global Climatic Change and Mitigation</b>	<b>5 hours</b>	
Global climate change and greenhouse effect – Kyoto Protocol, Carbon sequestration, Acid rain, Ozone depletion problem – Montreal Protocol.			
<b>Module:6</b>	<b>Social Issues and the Environment</b>		<b>6 hours</b>
Urban problems related to energy and sustainable development, Water conservation, Rain water harvesting, Wasteland Reclamation. Environment Protection Act - Prevention and control of Pollution of Air and Water. Wildlife protection and Forest Conservation Acts.			
<b>Module:7</b>	<b>Human Population and the Environment</b>		<b>7 hours</b>
Population growth, variation among nations, population explosion, Family Welfare Programme, Environment, Women and Child Welfare, Human rights, HIV/AIDS, Role of information technology on environment and human health. Discussion on current environmental issues / topics by an Industrial expert or faculty			
<b>Module: 8</b>	<b>Contemporary issues</b>		<b>2 hours</b>
Industry Expert Lectures			
<b>Total Lecture hours</b>		<b>45 hours</b>

<b>Course Objectives:</b>						
The course gives students the necessary background to:						
<ol style="list-style-type: none"> <li>1. To enable students to identify and explain economic concepts and theories related to the behaviour of economic agents, markets, industry and firm structures</li> <li>2. To integrate theoretical knowledge with quantitative and qualitative evidence in order to explain past economic events and to formulate predictions on future ones.</li> <li>3. To evaluate the consequences of economic activities and institutions for individual and social welfare</li> </ol>						
<b>Expected Course Outcome:</b>						
Students will be able to:						
<ol style="list-style-type: none"> <li>1. Understand the discipline of business economics</li> <li>2. Analyse how consumers and producers make decisions</li> <li>3. Evaluate the production and pricing decisions of business firms</li> <li>4. Understand the general principles of how the market economy functions</li> <li>5. Develop the skills to use theories, models and graphs to analyse economic issues in business</li> </ol>						
<b>Module:1</b>	<b>Introduction</b>	<b>6 hours</b>				
Objectives and Scope of Business Economics -Demand Analysis: Consumer Equilibrium- Law of Diminishing Marginal Utility Theory – Law of Demand – Demand determinants.						
<b>Module:2</b>	<b>Elasticity of Demand</b>	<b>6 hours</b>				
Elasticity of Demand – Types – Importance of Elasticity of Demand in Management – Demand Forecasting.						
<b>Module:3</b>	<b>Supply Analysis</b>	<b>5 hours</b>				
Law of Supply – Elasticity of Supply – Factors influencing Supply.						
<b>Module:4</b>	<b>Production Analysis</b>	<b>6 hours</b>				
Producer’s Behavior – Production Function – Law of Variable Proportion – Law of Returns to Scale.						
<b>Module:5</b>	<b>Cost Analysis</b>	<b>5 hours</b>				
Cost and Revenue Functions- Types – Short Run – Long Run – Areas of Cost Control.						
<b>Module:6</b>	<b>Break - Even Analysis</b>	<b>5 hours</b>				
Break-even Point – Determination of Break-even Point – Managerial uses of Break-even Analysis.						
<b>Module:7</b>	<b>Market Structure &amp; Pricing</b>	<b>5 hours</b>				
Perfect, Imperfect, Monopolistic, Monopoly, Oligopoly Pricing- Role of Pricing in Market.						
<b>Module:8</b>	<b>Objectives of Business Firm</b>	<b>5 hours</b>				
Sales or Revenue Maximization Theory- Objectives of Pricing Policy – Factors- Pricing Strategies: Skimming – Penetration Pricing.						
<b>Contemporary Issues</b>						<b>2 hours</b>
<b>Total Lecture Hours</b>						<b>45 hours</b>

<b>Course Objectives:</b>						
The course gives students the necessary background to:						
<ul style="list-style-type: none"> <li>To understand the application of Maths in business and administration.</li> <li>To solve the real problems using math application in an accurate way</li> </ul>						
<b>Expected Course Outcome:</b>						
<ol style="list-style-type: none"> <li>Students will be able to:</li> <li>The students can do the matrix and inverse square.</li> <li>Pay roll and annuities can be calculated in the organizations.</li> <li>Students will be able to calculate the depreciation and find out the value of Assets.</li> <li>Students will be able to use differentiation and chain rules in the business and organization.</li> <li>Problem solving techniques using Maxima and Minima can be applied in the management.</li> </ol>						
<b>Module:1</b>	<b>Matrices</b>	<b>5 hours</b>				
Definition of Matrix – Different types of matrices – Transpose of a matrix Matrix operation –Addition, Subtraction, Multiplication of matrices, Determinants of square matrix of order two and three-Inverse square matrix						
<b>Module:2</b>	<b>Pay roll</b>	<b>5 hours</b>				
Gross pay-Hourly rate and hours worked-overtime-salary and commission-Net pay						
<b>Module:3</b>	<b>Depreciation – Straight line method</b>	<b>4 hours</b>				
Depreciation and salvage value-straight line method-Units of products- Diminishing balance method-Sum of the year's digits method.						
<b>Module:4</b>	<b>Annuities and its Applications</b>	<b>4 hours</b>				
Annuities- sinking funds and Amortization and sinking fund						
<b>Module:5</b>	<b>Differentiation</b>	<b>4 hours</b>				
The Derivative – Basic Differentiation Rules and Rates of Change - Higher-Order Derivatives-Chain Rule						
<b>Module:6</b>	<b>Applications of Derivatives</b>	<b>3 hours</b>				
Average and marginal cost- relationship among total cost, average and marginal cost curves – Total revenue, marginal revenue and average revenue						
<b>Module:7</b>	<b>Maxima and Minima</b>	<b>3 hours</b>				
Maximum and minimum values for single variable function - applications						
<b>Module:8</b>	<b>Contemporary Issues</b>	<b>2 hours</b>

Pre-requisite	Nil	Syllabus version				
		1				
<b>Course Objectives:</b>						
<ol style="list-style-type: none"> <li>1. Learn the organization of a digital computer.</li> <li>2. Be exposed to the number systems.</li> <li>3. Ability Draw flow charts for problems.</li> <li>4. Be exposed to the syntax of C Programming.</li> <li>5. Learn to usage operators in C Programming.</li> <li>6. Be exposed to problem solving techniques and computer networks.</li> <li>7. Develop the skills to analysis the social media.</li> </ol>						
<b>Expected Course Outcomes:</b>						
The students will be able to:						
<ol style="list-style-type: none"> <li>1. Understand the components of the digital computer</li> <li>2. Convert the number systems.</li> <li>3. Learn to think logically and write pseudo code</li> <li>4. Design algorithm for problems.</li> <li>5. Be familiar with the use of Office software.</li> <li>6. Be exposed to presentation and visualization tools.</li> </ol>						
<b>Module:1</b>	<b>Fundamental Concepts and History</b>	<b>6 hours</b>				
History of Computers - Functionality of computer -Basic Components of Computer System – Control Unit – Memory unit - Input Devices –Output Devices						
<b>Module:2</b>	<b>Number systems and codes</b>	<b>7 hours</b>				
Characteristics and Classification of Computer Systems - Data Representations within Computer - Bits - Bytes and Words - Number Systems and Codes						
<b>Module:3</b>	<b>Software</b>	<b>6 hours</b>				
Types of Software – Software Terminologies – Installing and uninstalling software-Software Piracy –Booting-Software Development steps – Usage of Application software						
<b>Module:4</b>	<b>Database</b>	<b>6 hours</b>				
Data –Database –Data Base Management System –Database Models – Database Language Problems with file system- Data management - Commercial Databases and Applications						
<b>Module:5</b>	<b>Algorithm</b>	<b>6 hours</b>				
Algorithm – Definition – Properties of Algorithm – Classification of Algorithms – Algorithm Logic						
<b>Module:6</b>	<b>Flow Chart</b>	<b>6 hours</b>				
Importance of Flowchart, Flow chart symbols, Advantages of flow chart – Limitation of flow Charts						
<b>Module:7</b>	<b>Computer Networks</b>	<b>6 hours</b>				
Concepts of Computer Networking – Advantages – Network types – Network topologies-						

Applications of Computer Networks.			
<b>Module:8</b>	<b>Invited Talk:</b> Contemporary Issues	<b>2 hours</b>	
<b>Total Lecture hours</b>		<b>45 hours</b>	
<b>Text Book(s)</b>			
1.	Peter Norton,(2013),Introduction to Computers, TMH Publications, New Delhi		
2.	Dennis P., Curtin, (2012), Information Technology: The Breaking Wave, McGraw Hill, New Delhi

CCA3711	LOGISTICS AND SUPPLY CHAIN MANAGEMENT	3	0	0	0	3
Pre-requisite	Nil	Syllabus version				
		1.1				
<b>Course Objectives:</b>						
<ol style="list-style-type: none"> <li>1. To improve the overall organization performance and customer satisfaction by improving product or service delivery to consumer.</li> <li>2. to move the inventory in a <b>supply chain</b> effectively and efficiently and to extend the desired level of customer service at the minimal cost</li> </ol>						
<b>Expected Course Outcome:</b>						
<ol style="list-style-type: none"> <li>1. The student will be able</li> <li>2. To get a comprehensive understanding of supply chain management that covers planning, design and operations.</li> <li>3. To understand fundamental supply chain management concepts.</li> <li>4. To apply knowledge to evaluate and manage an effective supply chain.</li> <li>5. To understand the foundational role of logistics as it relates to transportation and warehousing.</li> <li>6. To align the management of a supply chain with corporate goals and strategies.</li> <li>7. To analyse and improve supply chain processes.</li> </ol>						
<b>Module:1</b>	<b>Logistics: at the Centre of World Trade</b>	<b>6 hours</b>				
Introduction – Logistics defined – Scope of Logistics – Logistics – A system concept – Customer value chain – Logistic functions – A logistic for Business Excellence – Objectives of Logistics management						
<b>Module:2</b>	<b>Understanding the Supply Chain</b>	<b>6 hours</b>				
Definition – Decision phases in a supply chain – Process view of a supply chain – The importance of supply chain flows						
<b>Module:3</b>	<b>Supply Chain Drivers and Obstacles</b>	<b>6 hours</b>				
Drivers of supply chain performance – A frame work for structuring drivers – Inventory – Transportation – Facilities – Information – Obstacles of Achieving Fit						
<b>Module:4</b>	<b>Demand Forecasting in a Supply Chain</b>	<b>6hours</b>				
The Role of forecasting in a supply chain – Characteristics of Forecasts – Components of a Forecast and Forecasting Methods – Basic approach to demand forecasting – <b>Problems in demand forecasting</b>						
<b>Module:5</b>	<b>Aggregate Planning in a Supply Chain</b>	<b>6 hours</b>				
The Role of aggregate planning in a supply chain – the aggregate planning problem – aggregate planning strategies – Aggregate planning using linear programming – Implementing aggregate planning in practice						
<b>Module:6</b>	<b>Designing and Planning Transportation Network</b>	<b>6 hours</b>				
The Role of transportation in a supply chain – Factors affecting transportation decisions – Modes of transportation and their performance characteristics – Design Options for a transportation network – Trade offs in transportation design – Routing and scheduling in Transportation						
<b>Module:7</b>	<b>Information Technology in a Supply Chain</b>	<b>7hours</b>				
The role of information Technology in a supply chain – <b>Framework for IT adoption</b> -The importance of Information in a supply chain – Use of information in supply chain – Supply chain information Technology in practice						
<b>Module:8</b>	<b>Invited Talk: Contemporary Issues</b>	<b>2 hours</b>				

<b>Total Lecture hours</b>		<b>45 hours</b>	
<b>Text Book(s)</b>

Pre-requisite	Nil	Syllabus version				
		1.1				
<b>Course Objectives:</b>						
<ol style="list-style-type: none"> <li>1. To understand different investment alternatives in the market</li> <li>2. To understand how securities are traded in the market</li> <li>3. To be able to analyze and price different securities</li> </ol>						
<b>Expected Course Outcomes:</b>						
<p>The students will be able</p> <ol style="list-style-type: none"> <li>1. To understand the risk and return involved in the investment</li> <li>2. To value assets such as stocks and bonds.</li> <li>3. To manage investment portfolios.</li> <li>4. To optimally diversify portfolios.</li> <li>5. To allocate investments into stock and bond portfolios in accordance with a person's risk preferences.</li> <li>6. To figure out when a trading account at a brokerage firm will receive a margin call.</li> </ol>						
<b>Module:1</b>	<b>Introduction</b>	<b>8 hours</b>				
Concepts of investment – Sources of investment information- Investment Instruments. Investment Cycle						
<b>Module:2</b>	<b>Valuation of Securities and Bonds</b>	<b>8 hours</b>				
Meaning of Securities- types- valuation of equity and preference shares- Bond and fixed income instruments valuation						
<b>Module:3</b>	<b>Risk and Return</b>	<b>8 hours</b>				
Concept-Types- factors contributing to total risk : default risk, interest rate risk, market risk, management risk, purchasing power risk, systematic and unsystematic risk						
<b>Module:4</b>	<b>Measurement of Risk and Return</b>	<b>8 hours</b>				
Measurement of return- Methods- Measurement of Risk-Standard deviation – Beta – Computation and interpretation						
<b>Module:5</b>	<b>Fundamental Analysis</b>	<b>8 hours</b>				
Concept of intrinsic value- Objectives and beliefs of fundamental analysts- Economic, Industry, Company framework and forecasting						
<b>Module:6</b>	<b>Technical analysis</b>	<b>9 hours</b>				
Points and figures chart, bar chart, RSA, RSI, Moving average analysis, MACD, Japanese Candlesticks						
<b>Module:7</b>	<b>Efficient Market hypotheses</b>	<b>9 hours</b>				
Random Walk theory- Weak form, Semi-Strong form and strong form hypotheses

CCA3716	ADVANCED COST ACCOUNTING	4	0	0	0	4
Pre-requisite	Cost Accounting	Syllabus version				
		1.0				
<b>Course Objectives:</b>						
1. The main objective of the course is to provide a thorough understanding of the theory and practice of cost accounting for decision making						
<b>Expected Course Outcome:</b>						
1. Reconcile cost accounts with financial accounts						
2. Prepare process accounts for process based industries						
3. Apply costing methods and techniques used for joint and By-Product						
4. Develop the skills necessary for inter firm comparison						
5. Demonstrate accounting procedures for manufacturing businesses.						
6. Identify the applications of marketing cost analysis						
7. Explain the basic concepts and processes in determination of cost of services						
<b>Module:1</b>	<b>Reconciliation of Cost and Financial Accounts</b>	<b>7 hours</b>				
Need for reconciliation – Reasons for disagreement in profit/loss – Method of reconciliation – Memorandum reconciliation account – Reconciliation statement						
<b>Module:2</b>	<b>Process Costing</b>	<b>9 hours</b>				
Process Costing –Equivalent production – Evaluation of equivalent production – FIFO – Average cost method-Inter-process profit - Process costing with multiple departments - Impact of flexible manufacturing and JIT on process costing						
<b>Module:3</b>	<b>Joint Product and By-Product Costing</b>	<b>9 hours</b>				
Joint products and co-products – Joint costs and subsequent costs – Accounting for joint products and By-products – Distinction – Scrap and waste - Decision making for further processing						
<b>Module:4</b>	<b>Uniform Costing and Inter firm Comparisons</b>	<b>9 hours</b>				
Uniform cost manual- Benefits and limitations of uniform costing Procedure and problems in inter firm comparison						
<b>Module:5</b>	<b>Activity-Based Costing</b>	<b>7 hours</b>				
Relevant cost and Activity-Based Costing (ABC) – Qualitative considerations in decision analysis						
- Decision-making process – Cost concepts for decision making						
<b>Module:6</b>	<b>Marketing Cost Analysis</b>	<b>9 hours</b>				
Objectives of marketing cost accounting - ABC system for marketing costs - Standard for marketing costs - ABC drives for marketing activities						
<b>Module:7</b>	<b>Service Costing</b>	<b>8 hours</b>				
Concept of service costing - Power costing - Canteen costing - Hospital costing						
<b>Module:8</b>	<b>Invited Talk: Contemporary Issues</b>	<b>2 hours</b>

		1				
<b>Course Objectives:</b>						
<ul style="list-style-type: none"> <li>To learn the fundamentals of data, files and databases.</li> <li>To demonstrate the essentials of database modeling techniques for E-payment systems</li> <li>To provide the fundamentals of back-end database connectivity process.</li> <li>To apply electronic management principles across the e-commerce disciplines.</li> <li>To learn the concepts in emerging database security systems.</li> </ul>						
<b>Expected Course Outcomes:</b>						
e students will be able to						
<ul style="list-style-type: none"> <li>Apply the fundamental concepts of database management system to e-business management.</li> <li>Design and experiment the database modeling.</li> <li>Select and use algorithm for PL/SQL and system implementation techniques.</li> <li>Communicate effectively through normal forms for databases.</li> <li>Model and implement the database applications.</li> <li>Apply a systematic, quantifiable approach to the database security problems.</li> <li>Learn the algorithm for solving the database recovery issues.</li> </ul>						
<b>Module:1</b>	<b>Data base Systems</b>	<b>6 hours</b>				
History of database systems- Components of database systems - DBMS functions- Database architecture - Data independence.						
<b>Module:2</b>	<b>Data Modelling</b>	<b>6 hours</b>				
Data modelling - Conceptual models -Object-oriented model - Relational data model - Database query Languages - Overview of database languages – SQL – DDL – DML – TCL.						
<b>Module:3</b>	<b>Relational Databases</b>	<b>6 hours</b>				
Mapping conceptual schema to a relational schema - Entity and referential integrity- Relational - algebra - Relational calculus- Relational database design - Database design.						
<b>Module:4</b>	<b>Normalization</b>	<b>6 hours</b>				
Functional dependency - Normal forms – 2NF – BCNF - Multivalued dependency - Join dependency- Representation theory.						
<b>Module:5</b>	<b>Transaction Processing and E-Payments</b>	<b>6 hours</b>				
Introduction to Transactions – Single user and multiuser system transactions – Read and write operations DBMS buffers – Transactions system concepts – Digital Payment – Digital Signature.						
<b>Module:6</b>	<b>Physical Database Design</b>	<b>7 hours</b>				
Storage and file structure-Indexed files- hashed files - Signature files - b-trees - Files with dense index - Files with variable length records- Database efficiency and tuning.						

<b>Module:7</b>	<b>Concurrency, Recovery and Security</b>	<b>6 hours</b>	
Database security issues - Types of locks – System lock tables – deadlocks – Timestamp ordering algorithm - Recovery concepts – ARIES recovery algorithm.			
<b>Module:8</b>	<b>Invited Talk: Contemporary Issues</b>	<b>2 hours</b>	
<b>Total Lecture hours</b>		<b>45 hours</b>

<b>Course Objectives:</b>						
<ol style="list-style-type: none"> <li>To introduce the concepts of internet programming technologies</li> <li>To gain knowledge in a variety of web skills crucial for building dynamic websites and applications.</li> <li>To develop dynamic web pages and Web based application forms.</li> </ol>						
<b>Course Outcomes:</b>						
<p>Students will be able to:</p> <ol style="list-style-type: none"> <li>Learn the importance of web based applications for today's e-world.</li> <li>Design and create E-commerce web pages using HTML</li> <li>Apply knowledge of HTML and CSS code and an HTML editor to create personal and/or business websites following current professional and/or industry standards</li> <li>Facilitate the creation and validation of simple forms.</li> <li>Write well-structured, easily maintained, standards-compliant CSS code to present HTML pages in different ways.</li> <li>Apply CSS code to target HTML tags, text and other elements in an HTML page.</li> <li>Use CSS in creating user interfaces for mobile and websites.</li> </ol>						
<b>Module:1</b>	<b>Internet and its Applications</b>	<b>4 hours</b>				
Introduction – Internet Service Provider - Internet Protocol Addressing - Domain Name System –						
Electronic mail - Search engine - world wide web - Internet Relay Chat- Virus - types and effects -						
Cookies- cybercrimes and types						
<b>Module:2</b>	<b>HTML5</b>	<b>4 hours</b>				
Tags and attributes and values - head - body – title - headings - text - hyperlinks and anchor – meta tag -						
image tag - background Images - list and its types - Marquee and other dynamic effects						
<b>Module:3</b>	<b>Tables</b>	<b>4 hours</b>				
Basic tags - inserting and resizing rows and columns - cell spacing - cell spanning - setting border -						
border color - caption - background.						
<b>Module:4</b>	<b>Frames</b>	<b>4 hours</b>				
Basic tags - margins and size – scrollbars – Communicating between frames –Inline frames						
<b>Module:5</b>	<b>Form Controls</b>	<b>4 hours</b>				
introduction – tags - get and post method - text field – password - radio button – checkboxes - text area –						
submit buttons – input box and message box - navigating through a form – Processing forms with simple						
reset and functions						
<b>Module:6</b>	<b>CSS3 Introduction</b>	<b>4 hours</b>				
Introduction – Colors – Backgrounds – Fonts – Text – Images – Links – Tables – Borders – Margins –						
List – Padding - Selectors and Pseudo Classes						
<b>Module:7</b>	<b>Enhancements and effects with CSS</b>	<b>4 hours</b>				
Cursors – Outlines – Dimension – Scrollbars - Box effects – Transitions – Transforms –Linking – Animations -						
Embedding - Images and Media – Navigation Bar – Creating simple web pages						
<b>Module:8</b>	<b>Invited Talk: Contemporary Issues</b>	<b>2 hours</b>				
<b>Total Lecture hours</b>						<b>30 hours</b>

## LAB

### Indicative List of Experiments in the areas of :

#### 1. Build website from scratch

- Use basic HTML tags to define the overall structure of a web page.
- Add some text content to the web page.
- Add an image to the web page.
- Separate the web page into sections and give each section a heading.

#### 2. Margin

- Set the left margin of <h1> to "20px".
- Set all margins for <h1> to "25px".
- Use the margin property to set the top and bottom margins for <h1> to "50px", and left and right margins to "25px".
- Use the margin property to center align the <h1> element.

#### 3. Padding

- Set the top padding of <p> to "30px".
- Set all paddings for <p> to "50px".
- Use the padding property to set the top and bottom paddings for <p> to "25px", and left and right paddings to "50px".

#### 4. Box-Model

- Set the width of the div to "200px".
- Set the padding of the div to "25px".
- Set the border of the div to "25px solid navy".
- Set the margin of the div to "25px".

#### 5. Outline

- Set a "solid", "5px" outline for <p>.
- Set the outline color for <p> to "green".
- With the outline property: Set the outline for p to "red", "dotted" and "10px".

#### 6. Tables

- Set the border to "2px solid green" for table, th and td elements.
- Collapse the table borders into a single border.
- Set the width of the table to "100%".
- Set the text alignment in <td> elements to "right".
- Set the padding in <th> elements to "15px".
- Set the background color of <th> elements to "lightblue".

#### 7. Positioning

- Position the <h1> element relative to the browser window. 50px from the top, and 50px from the right.
- Position the <h1> element 20px left, and 30px down, relative to its normal position.
- Position the <h1> element 50px from the left, and 100px from the top, relative to the HTML page.
- Position the <img> element behind the text.
- Position the element with the "top left" class 30px from the left, and 15px from the top, relative to its container.

#### 8. Pseudo-Classes

- Set the background color for visited and unvisited links to "light blue", and the background color for the hover and active link states to "yellow".
- Change the background color, when a user hovers over p elements, with the class "highlight", to "light blue".
- Set the background color of <p> elements that are the first child of any element, to "light blue".
- Set the background color of <input> elements that are in focus (clicked or active), to "light blue".

#### 9. Pseudo-elements

- Set text color to red, for the first line of the <p> element.
- Set text color to "red", and the text size to "xx-large", for the first letter of the <p> element.
- Insert the image "smiley.gif" before, and after <p> elements, using the ::before and ::after pseudo-elements.

#### 10. Transition

- Add a 2 second transition effect for width changes of the <div> element.
- Specify that the transition of the <div> element should have a "ease-in-out" speed curve.
- Specify that the transition of the <div> element should have a "0.5" second delay before starting.
- Add a 2 second transition effect for background, and transform changes of the <div> element.
- Using the transition shorthand property, specify width changes for the <div> element should have: "2" second duration, "ease-in-out" speed curve, and a "0.5" second delay before starting.

#### 11. Animation

- Add a 2 second animation for the <div> element, which changes the color from red to blue.
- Specify that the animation of the <div> element should have a "1" second delay before starting.
- Specify that the animation of the <div> element should continue to loop forever.
- Specify that the animation of the <div> element should alternate between running forwards and backwards.
- Specify that the animation of the <div> element should have a "ease-in-out" speed curve.
