ABOUT VELLORE

Vellore is a city and the administrative headquarters, of Vellore District in the South Indian state, Tamil Nadu. Vellore is the base of two, India's top ten educational institutions, Christian Medical College & Hospital and VIT. It is also a major centre for medical tourism in India. Other than being a cultural and educational hub, Vellore is also a major tourist attraction with places like Vellore Fort, Jalakandeswarar temple, Golden temple, Assumption Cathedral and Amirthi Zoological park. Vellore is just 137 kms from Chennai and 212 kms from Bangalore providing excellent options for travel. Presence of several 4 star and 5 star hotels in the city makes it a comfortable place to stay as well.

ABOUT VIT AND SMEC

VIT, formerly known as Vellore Engineering College was founded by Dr. G Viswanathan in 1984. The concept of world class education, limitless exposure, and nourishment, ignited minds for the future of our nation and abroad are the very foundations on which this institution was built. It began with an intake of 180 students and over the years, VIT evolved consistently into 4 campuses. Nearly 31000 students are enrolled in UG and PG programs. VIT's academic and extracurricular activities have grown exponentially over the years. VIT ranks among top 10 in terms of research publications. It has a unique lifestyle and culture. Nearly all the festivals are celebrated in VIT. Students from across the nation and abroad reside and study in VIT which gives the feel of 'Home Away from Home'. VIT also has a strong Alumni because of which it has built a strong network in the industry. For its relentless commitment towards its' vision, professional achievements & contribution towards the society, VIT has been ranked No.1 by MHRD in 2016.

ABOUT ASME-VIT

ASME-VIT is a Mechanical Engineering student chapter in VIT, Vellore. It was established in 2010 with the help of officials from ASME-INDIA. Our vision is to preach knowledge about the practical applications of Mechanical Engineering concepts, provide a platform for students to develop and showcase their technical skills and most importantly; develop a network of professionals working in the industry. In order to accomplish our vision, ASME-VIT has successfully organized symposiums like INERTIA-2013, MECHNOVATE-2015, ASME GT INDIA Conference-2015, MECHNOVATE-2016, HPVC-2016 and SPDC-2016. ASME-VIT has also won the Outstanding Student Section Award granted by ASME-INTERNATIONAL at Asia-Pacific level in August 2016 for its perseverance and overwhelming outreach. ASME-VIT will continue its legacy of success and scale new heights in the years to come.

ABOUT ICMMM

International Conference on Materials, Manufacturing and Modelling (ICMMM) is a three day technical event that provides a platform for leading researchers, academicians and industry experts to come together and exchange knowledge and views on global changes in materials, manufacturing and modelling. This event is being jointly organized by the School of Mechanical Engineering (SMEC), VIT in association with American Society of Mechanical Engineers (ASME) Chapter, VIT. It is being planned to organize this event once in every two years and ICMMM - 2019 will be second in the series which is being scheduled for 29th to 31th March 2019. The authors of all accepted papers will be invited to present their work during the conference and subsequently the papers will be published in a Scopus index journal.

CONFERENCE THEME

Parallel technical sessions will run on different themes in materials, manufacturing and modelling. While the following list is a general guideline for authors, there is flexibility and prospective authors may suggest and include contribution on alternative themes in related other fields. All papers will undergo a peer review process and will be put through a quality control system.

- ◆ Additive Manufacturing
- ◆ Advances in Casting Technology
- ◆ Advances in Metal Forming
- ◆ Advances in Metal Cutting
- ◆ Advances in Materials
- ◆ CAD/CAM, Computer Integrated Manufacturing
- ◆ Cloud Manufacturing System
- ◆ Composites: MMC, CMC and PMC
- ◆ Digital Manufacturing System
- ◆ Energy Efficient Manufacturing
- ◆ Flexible/Agile/Reconfigurable Manufacturing Systems
- ◆ Inventory Modelling
- ◆ Intelligent Manufacturing Systems
- ◆ Machinability: Hard Machining and Super Alloys
- ◆ Manufacturing Processes and Emerging Trends
- ◆ Materials and Manufacturing
- ◆ Material Engineering and Manufacturing
- ◆ Modelling and Simulation of Manufacturing System
- ◆ Nano Materials and Technology
