Mode of Evaluation: CAT / Digital Assignments / Quiz / FAT.						
Recommended by Board of Studies	30-06-2021					
Approved by Academic Council	No. 62	Date	15-07-2021			

Course code	Course Title		L	T	P	C
PSWK111L Social Legislation			3	0	0	3
Pre-requisite	Nil	Syllabus version				
		v. 1.0				

- 1. To enable students to understand the judicial system and the legal mechanisms for seeking justice.
- 2. To impact knowledge about the various legislations available to deal with social problems.
- 3. To expose them to law enforcement institutions and bridge the gap between the Criminal Justice System and victims.

#### **Expected Course Outcomes**

Students will be able to

- 1. Demonstrate an understanding of how historical and contemporary social and legal contexts have shaped the various components of the criminal justice system.
- 2. Apply criminological theories to explain deviant behaviors and the criminalization of non-conformity.
- 3. Explain the construction of social structures and categories (e.g., race, class, gender) and their influence on laws and law enforcement, including the confluence of resultant criminogenic factors
- 4. Develop strategies to address issues of social change within the context of the criminal justice system.
- 5. Demonstrate an in-depth understanding of one aspect of criminology, criminal justice, or law and its relationship to larger social issues.
- 6. Communicate criminological concepts and/or research in a manner that is appropriate for the intended audience (e.g., race, class, gender, sexuality).

#### **Module:1** Introduction to Social Legislation

8 hours

Concepts of social legislation Constitutional base of social justice, positive and protective discrimination Social legislations in India as a welfare state. The Constitution of India: Preamble and Fundamental Rights. Judicial system in India: Supreme Court, High Court, District Court and Session Court, Special Courts/Tribunals. Role of Social Workers in promotion of social Justice, Human Rights through Social Legislation.

#### Module:2 | Laws related to Citizens

7 hours

Lok-Adalat- Purpose and legal Provisions - Legal Aid: Concept & history of legal-aid, persons needing legal-aid, legal-aid schemes - Judicial activism and Public Interest Litigation: Meaning, Concept, Process and Problems - Provisions and implementation - Right to Information Act 2005 Consumer Protection Act - Project Affected persons- Role of Social Worker: Social Work intervention, need, methods and problems.

#### Module:3 | Marriage and Law

5 hours

Hindu Marriage Act 1955, Hindu Adoption and Maintenance Act 1956, Christian Marriage Act 1955, Laws pertaining to Marriage, Divorce, Adoption under Mohammedan Laws, Special Marriage Act 1954, Family Court Act 1984.

#### **Module:4** | Women and Law

6 hours

Dowry Prohibition Act 1961(1986), Prevention of Immoral Traffic Act 1956 TN Prohibition of Eve Teasing Act 1988, TN Prohibition of Ragging Act 1997, Indecent representation of women Act 1986, Domestic Violence Act 2005, Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013, Maternity Benefit Act 1961(2017).

#### **Module:5** | Children and Law

5 hours

Child Marriage Restraint Act 1929, Juvenile Justice Act 2000, Child Labour Abolition and Regulation Act 1986, Central Adoption Resource Agency Guidelines 1991, Protection of Children

from Sexual Offences Act (POCSO) 2012, Guardians and Wards Act, 1890.

#### **Module:6** | **Social Problems and Law**

7 hours

Transplant of Human Organs Act- 1994, Cyber Crime and Information Technology Act, 2000, Maintenance and Welfare of Parents and Senior Citizens Act- 2007, Bonded Labour (System) Abolition Act. 1976. The Scheduled Castes and Scheduled Tribes (Prevention of Atrocities) Act- 1989, Protection of Civil Rights (PCR) Act 1955, The Tamil Nadu Prevention of Begging Act 1945, Tamil Nadu Interests of Depositors Act 1997 - Crime and Criminality.

#### Module:7 | Laws Related to Workers & Differently Abled Groups

5 hours

Laws Related to Workers: Social Security Acts- ESI, PF, etc. Informal sector. Laws Related to disabled groups: Mental health, Persons with disability - Prohibition of Employment as Manual Scavengers and Rehabilitation, - Bonded Labour and Migrant workers, Beggars, LGBT.

#### **Module:8** | Contemporary Issues

2 hours

Guest Lecture

**Total Lecture Hours** 

45 hours

#### Text Book(s)

- 1. Namita Gupta (ed.), Social Justice and Human Rights in India, 2021, Rawat Publication,
- 2. Jaipur.
  - K.D. Gaur, A Textbook on the Indian Penal Code, 2020, Universal Law Publications.

Approved by Academic Council	No. 62	Date	15-07-2021		

Course code	Course Title		L	T	P	C
PSWK112E	PSWK112E Research Methodology			0	4	4
Pre-requisite	Nil	Syllabus version				
		v. 1.0				

- 1. To develop skills in the selection and formulation of research problems with an understanding of the rationale and the different steps involved in the process.
- 2. To familiarize with understanding of the various research Designs and their elements, as well as design requirements
- 3. To inculcate skills for processing, analysis, interpretation, documentation, presentation and report Writing.

#### **Expected Course Outcomes**

Students will be able to

- 1. Demonstrate knowledge of the scientific method of inquiry for the study of social phenomena.
- 2. Develop an understanding of the research process and basic research skills.
- 3. Demonstrate knowledge of scales, notation, frequency distributions, measures of central tendency, measures of dispersion, and the normal distribution.
- 4. Read and analyze basic charts and graphs, contingency tables, and computer results.
- 5. Explain, calculate, and interpret inferential statistics including probability, and hypothesis tests.
- 6. Comprehend mixed method used in social research.

#### Module:1 The Concepts and Research Project

4 hours

**Social Work Research**: Concept, definition and objectives: differentiate social research and social work research - Scientific enquiry: scope and nature, basic elements of scientific method - **Research paradigms:** quantitative and qualitative- philosophical dimensions of research - Epistemological and Ontological considerations. Planning a Research Project: Identification and formulation of research problem, Framing objectives, defining concepts, Conceptual and Operational definitions; Use of theorization in review of literature.

#### **Module:2** | Methods of Social Research

4 hours

Historical, Action research, Participatory research – RRA, PRA, PLA & AI, Field research, Evaluatory research, Census study, Survey Research, Monitoring and research. Methods of data collection: Systematic observation, life histories, in-depth/unstructured interviews, group interviews and focus group discussions, case studies, narrative research, phenomenology, ethnography and participant observation – advantages and disadvantages - Grounded theory, Content Analysis, Narrative, SWOT analysis.

#### Module:3 | Quantitative and Qualitative Research Methods in Social Work | 4 hours

**Research Problem Formulation**: Concepts, theoretical and operational definition of concepts role of theory in research - variables: types - Hypothesis- definition, types, sources and significance - Formulationof research proposal- steps of research proposal - pilot study - ethical considerations in research. Approaches in qualitative research- Planning and preparing proposals for qualitative studies- The Process of Qualitative Research - Conceptualizing qualitative studies: identifying the focus of the study, the areas of study and lines of inquiry - Designing qualitative studies: developing a research strategy, theoretical sampling, specifying the role of the researched and the researcher, and insider/outsider perspectives.

#### **Module:4** | Research Design

4 hours

**Research Design**: - Meaning, purposes and types: cross sectional; longitudinal; experimental. Quasi-experimental design. Single subject designs in social work, group design. Mixed methods design: Concept of triangulation and iteration; Types - Sequential explanatory, Sequential transformative, Concurrent triangulation, Concurrent nested and Concurrent transformative.

#### **Module:5** | **Population and Sampling**

3 hours

Sampling definition, sampling theory, purpose and types - probability and non-probability sampling – Merits and demerits. Sources and types of data: primary and secondary, objective and subjective, quantitative and qualitative data. Objective of the questionnaire – Types of questionnaire – Steps in preparation of questionnaire – Do's and Don'ts of the questionnaire – Layout of questionnaire model.

#### **Module:6** Data Collection and Measurement

5 hours

**Data Collection**: Methods of data collection – Quantitative Tools: Questionnaire, interview schedule, Online survey, Structured Observation. Qualitative Tools: Key informant, FGDs, Case study, Participatory and Rapid appraisal techniques and process, Interview Guide, Documents & Audio-visual materials.

**Measurement**-Levels of measurement: Nominal, Ordinal, Interval and Ratio. Pre-test, Problems of scaling - Reliability, Internal and external validity.

**Central Tendency:** meaning, relevance, uses, merits and demerits Measures of dispersion (Range, Quartile deviation, Mean deviation, Standard Deviation): meaning, relevance, uses, merits and demerits Measures of Correlation (Karl Pearson's Coefficient of correlation and Spearman's Rank correlation): meaning, relevance, uses, merits and demerits.

#### Module:7 Data Analysis and Writing Research Report

4 hours

Steps involved in hypothesis testing; Type I and Type II error, Tests of significance, Levels of confidence, degrees of freedom. Chi square test, t test, One way and two wayAnova. Correlation – Simple Regression – Multiple Regression - Factor Analysis - Cluster Analysis. Preparation of research report – Structure and contents-requisites of good report-referencing, bibliography.

#### **Module:8** | Contemporary Issues

2 hours

Guest Lecture – Statistical Methods

#### **Total Lecture Hours**

30 hours

#### Text Book(s)

- 1. ArunangshuGiri, DebasishBiswas, Research Methodology for Social Sciences, 2019, SAGE Publications.

PSWK113L	Disaster Management		3	0	0	3
Pre-requisite	Nil	Syllabus version			on	
		v. 1	.0			

- 1. To provide conceptual understanding of the social nature of natural hazards and disasters.
- 2. To educate students on the different forms of disasters that occurred globally, international and national policies, institutional mechanisms in disaster mitigation, preparedness, response, and recovery
- 3. To make the learners aware on the role of social workers in disaster recovery plans at various level of interventions.

#### **Expected Course Outcomes**

- 1. Students will acquire knowledge about different types of disasters and approaches of disaster management
- 2. Understand the natural environment and its relationships with human activities.
- 3. Analyse human impacts on the environment and the consequent results.
- 4. Integrate facts, concepts, and methods from multiple disciplines and apply it to environmental problems.
- 5. Evaluate and manage the different public health aspects of disaster events at local and global levels.
- 6. Examine and communicate information on risks, relief needs and lessons learned from earlier disaster management Lessons to formulate strategies for mitigation for future endeavours.

#### **Module:1** Introduction to Disaster

4 hours

Disaster: Meaning, Concepts and related issues, Definitions of Disaster management, Risk, Hazard.

#### Module:2 Natural Disaster and Causes

6 hours

Natural Disaster: Meteorological: Storm, Cyclone. Topological: Avalanche. Telluric: Earthquake. Manmade disasters. Effects: Physical, Social, Economic, Psychological, Spatial.

#### **Module:3** Theories and Models of Disaster

6 hours

Theories – Vulnerability theory, Resilience theory, Community theory, Ecology theory, Models of Disaster - Crunch Model and Release Model. Types and Effects of Disaster.

#### Module: 4 Disaster Management and Phases

7 hours

Disaster Management and Phases: Pre-disaster: Prevention, Preparation, Education Vulnerability and Preparedness, Actual Disaster: Contingency, Short Term and Long Term Plans, Search, Relief, Rescue, Recovery and Restoration, Evacuation Management.

#### **Module: 5 Assessment and Disaster Preparedness**

6 hours

Participatory Assessment of Disaster Risk Steps - Preparation, Hazard Assessment, Vulnerability Assessment, Community Asset mapping, Capacity Assessment, Key Informant Interviews and Action Planning. Disaster planning and preparedness, Role of Social workers in disaster work.

#### **Module: 6 Post Disaster and Disaster Management**

7 hours

Post disaster: Rehabilitation and Commemorations, Role of Social Workers and Voluntary Agencies, Role of Social Work Professionals at Different Levels: Resources Mobilization, Working with Other Professionals, Working with Government and Voluntary Organizations, Voluntary Agencies Working on Disaster Management, International Intervention and Collaboration for disaster recovery.

#### Module:7 Science and Technology for Disaster Management

7 hours

Definition, Concepts, Scope of science and technology for Disaster management, Sustainable Development Goals for Technology and Environment, Disaster risk reduction and management, Hyogo and Sendai Frameworks and Disasters. Challenges and limits of adapting and adopting

technologies,	Prevention	of	Disasters,	Relationship	between	sustainable	deve	lopment	and
disasters.

Pre-requisite	Nil   Sy	Syllabus version			on
	V.	1.0			

- 1. To understand the inter-relation between society on natural systems.
- 2. To analyse multi-dimensional problems of environment and synthesize alternative sustainable solutions.
- 3. To create consciousness in creating a just and sustainable environment.

#### **Expected Course Outcomes**

- 1. Learn about the economic, social, and environmental aspects of sustainability and some frameworks for defining and measuring progress toward a sustainable society.
- 2. Explore the major impacts that human beings have on the environment.
- 3. Engage learners in experiential learning activities through modern approach.
- 4. Equipping learners to take feasible actions in protecting environment
- 5. Articulating methodologies in solving long term problems affecting human being and environment
- 6. Organizing regular events on recycling programs in creating consciousness on social responsibility.

#### **Module:1** Introduction to Environment

4 hours

Introduction to Environment and Environmental Studies: Definition and Components of Environment, Relationship between the different components of Environment, Relationship betweenMan and Environment, Impact of technology on Environment, Environmental Degradation, and Multidisciplinary nature of the Environment studies- its scope and importance in the present day Education System.

#### **Module:2** Natural Resources

6 hours

Natural Resources: Renewable and non-renewable resources, Natural resources and associated problems, Forest resources, Water resources, Mineral resources, Food resources, Energy resources, Land resources, Role of an individual in conservation of natural resources, Equitable use of resources for sustainable lifestyles.

#### **Module:3** Introduction to Biodiversity

5 hours

Definition: genetic, species and ecosystem diversity, Bio geographical classification of India, Value of biodiversity, Biodiversity at global, national and local levels, Threats to biodiversity, Conservation of biodiversity.

#### **Module:4** | Conservation of Biodiversity

7 hours

Social Issues and the Environment from unsustainable to sustainable development, Urban problems related to energy, Water conservation, rain water harvesting, watershed management, Resettlement and rehabilitation of people; its problems and concerns, Case studies, Climate change, Global warming, Environmental Protection Act, Public awareness, Population growth, Role of Information Technology in Environment and Human Health, Role of Social workers in Environmental Protection.

#### **Module:5** | Environmental Sustainability

7 hours

Concepts, Scope and theories of Ecological and environmental sustainability – methods and approaches of environmental sustainability. Impact of environmental sustainability on society. Influence of industrial ecology and impact of pollution prevention, Climate change, Threepillars of sustainability – economic viability, environmental protection and social equity.

#### **Module:6** Environmental Justice

7 hours

Concept on environmental quality and social justice. Hazardous and non-hazardous pollution. Natural resources and environmental threats impacting social, political and economic processes on

health and livelihood. Environmental Justice and Globalization, Conservation and Sustainability, Environmental justice issues in urban and rural settings, Environmental Justice Movement, Climate justice, Nature conservation as social exclusion movement.

#### **Module:7** Global Consciousness and Best Practices

7 hours

Concepts, meanings, features, scope of global consciousness. International Perspectives of global environment – Challenges and approaches – sustainability consciousness and role of students, Best practices adopted in other countries in protecting the environment, Role of Environmental agencies in protecting the environment, Natural ecosystems and biodiversity.

#### **Module:8** Contemporary Issues

## **Discipline Elective Courses**

Course code	Course Title		L	T	P	C
PSWK201L	<b>Community Health</b>		3	0	0	3
Pre-requisite	Nil	Syl	labı	ıs v	ersi	on
		v. 1	.0			
Course Objective	ng .					

- 1. To generate awareness on health requirements of the vulnerable sections of the community.
- 2. To motivate students to integrate health issues in their field work practices.
- 3. To help students develop their knowledge in social work interventions in the area of communityhealth.

#### **Expected Course Outcomes**

Students will be able to:

- 1. Understand the essential concepts of community health.
- 2. Gain awareness on the causes, preventive measures and treatment of various diseases.
- 3. Realize the issues related to maternal and child care health.
- 4. Comprehend the importance of food, nutrition and immunization in community health care.
- 5. Understand the relevance of SDGs, MDGs and NGOs in ensuring community health.
- 6. Acquire knowledge on national level policies and legal support meant for community health.

#### **Module:1** Concepts of Community Health

6 hours

Definition of Health and Wellbeing - Determinants and Indicators of Health - Social Determinants of health: Health, Hygiene and Sanitation - Definition of disease - Definition of Community Health - Definition of Public Health - Changing concepts in Public Health - Health Perspective - Human Development Index.

#### **Module:2** | Communicable and Non – Communicable Diseases

7 hours

Communicable diseases: Causes, Prevention and Treatment - Mode of transmission: Vector borne, Air borne and Water borne diseases - Swine Flu - HIV/AIDS, T.B, Hansen's disease - Non-Communicable diseases: Diabetes, Cardiac diseases, Hepatitis and Cancer, Addiction and health: Alcoholism and Drug addiction - Definition, characteristics and stages - Impact of addiction: Individual, family, social, economic, employment and moral issues.

#### Module:3 | Maternal and Child Health

6 hours

Maternal and Child Health - Issues and problems - Gender and Health - IMR & MMR: Definition and importance - Antenatal - Intranatal - Post natal care - Breast feeding and its importance - Reproductive Health - Importance of Reproductive health - Family planning & its methods - Sex and Sexuality in terms of HIV/AIDS, LGBT community - Sexual Reproductive health right.

#### Module:4 Food, Nutrition, Immunization & Health

4 hours

Food, Nutrition & Health - Concept of balanced diet - Malnutrition - Vitamin and Protein deficiency disorders - Poverty, Health and Human rights - Immunization and health.

#### **Module:5** | **Health Care in India**

6 hours

Health care systems in India - Administrative structure and functions of Primary Health Care centres - Levels of Health Care - Primary, Secondary and Tertiary levels - NRHM, AYUSH - Practice of Health Education: Definition, Approaches, Models, Contents, Principles, Preventive, Curative and Social medicine.

#### Module:6 | SDGs and NGOs on Health

7 hours

Millennium Development Goals & Sustainable Development Goals - Influence of Market focus on Community Health - Role, Functions and Problems - National and International organization working in the field of community health: UNISEF, WHO, FAO, SAID, REDCROSS, CARE, FORD FOUNDATION.

#### **Module:7** | National Policies on Health

7 hours

National Health Policy 2002 - National AIDS prevention and control policy 2002 - National

Policy for old persons 1999 - Legislations related to health: Indian Council for Medical Research Act 1956 and regulations 2002, The Epidemic Disease Act 1897, Mental Health Act 1987, Drugs Control Acts 1948. The Red Cross Society Act 1936.

		v. 1.0	)			

- 1. To understand urban communities, urban planning and development.
- 2. To generate awareness regarding the rights of the impoverished sections of urban communities.
- 3. To develop essential skills for social work interventions in urban areas.

#### **Expected Course Outcomes**

Students will be able to:

- 1. Gain insights on the urban communities and develop theoretical perspectives on urbanization.
- 2. Comprehend the issues faced by the impoverished sections of urban communities.
- 3. Acquire comprehensive understanding on urban policies and programmes in India.
- 4. Identify the need for participation, social action, advocacy and community mobilization for urban community development.
- 5. Obtain knowledge on urban administration and functions of various urban local bodies.
- 6. Develop skills and competencies to work with urban communities.

#### **Module:1** Urban Communities and Urbanization

7 hours

Urban Communities: Meaning, Characteristics, Types and Features - City: Meaning - Classification: Urban Agglomeration, Suburbs, Satellite towns, Hinterlands, New towns, Metropolis, Megalopolis, Rural Urban linkages - Urbanization: Concept, Characteristics, Process, Theories - Causes and Consequences of urbanization.

#### Module:2 | Urban Poor

6 hours

Urban poor: Identity - Challenges: Right to food security, Housing and livelihood - Urban basic services for the poor and its impact: Sanitation, Health and Water condition — Urban Poverty: Issues of Social exclusion and inclusion.

#### Module:3 | Urban Community Development Policies and Programmes

8 hours

Urban Community Development:Definition, Objectives - Urban development policies and programmes of India: Initiatives by the Ministry of Urban affairs, Five year plans, Housing and Urban Development Corporation (HUDCO) and JNNURM, Urban Basic Services Programmes (UBSP), Metro Rail Projects - Urban Planning: Town and Country Planning Act 1971, Importance of Community planning and Community participation in Urban Development - Application of Social work methods in Urban Development.

#### **Module:4** | Emerging Urban Problems and Concerns

8 hours

Slum: Definition, causes and characteristics, Types - Impact of privatization, Industrialization and Globalization on Slum - Drug addiction - Sex workers - Juvenile Delinquency - Urban Poverty - Urban unemployment — Issues of Urban settlement and housing - Urban pollution - Pavement dwelling and street vendors - Waste management - Urban transport - Emerging Concerns: Urban reforms and impacts on the poor, need for National Urban Policy.

#### Module:5 | Participation, Action and Advocacy

5 hours

People's participation: Concept, importance, scope - Social action and advocacy in urban development - Public distribution systems - Right to information and accountability - Civil society initiatives for urban community development - Case studies of best practices.

#### **Module:6** Urban Community Development Administration

5 hours

Urban Community Development Administration: Need, Structure and Initiatives at the Central, State and Local levels - Salient features of the 74<sup>th</sup> Constitutional Amendment Act - Slum Clearance Board - Housing Board - Initiatives of UN.

#### Module:7 | Community Mobilization for Urban Community Development

4 hours

Cor	mmunity Mobilization: Definition and facilitating techniques - Community Mo	obilization in
sluı	ms - and Community Mobilization for disaster preparedness management.

Pre-requisite	Nil	Syll	labu	IS V	ersi	on
		v. 1	.0			

- 1. To understand families as social systems and factors affecting family functioning
- 2. To comprehend the significance of child development and rights of children
- 3. To acquaint with policies, programmes and services related to family and children

#### **Expected Course Outcomes:**

By the end of the course, students will be able to:

- 1. Understand the changing structural and functional dynamics of family systems
- 2. Learn assessment of family relations and design suitable interventions for ensuring family well-being
- 3. Examine state of children in India, their vulnerabilities and efficacy of policies and programmes for the children
- 4. Comprehend the social work response in family setting and learn skills in working with couples, families and children course
- 5. Develop skills of working with family systems and children
- 6. Able to create a rational frame work about child rights & child issues

#### **Module:1** | Family as an Institution

7 hours

Family as an Institution its function and importance; Impact of urbanization on family; Changing functions of family; problems related to family; objectives of family welfare; Historical development of services for the family, women and children.

#### **Module:2** | Family Assessment

5 hours

Marriage: concept, relevance, structures and functions - Family life cycle: roles and challenges in various stages. Theoretical models of family assessment (Circumplex, Ecological approach, McMaster).

#### **Module:3** | Family Problems

6 hours

Family problems & social work response - Intra-family problems: types, causes and consequences - Families in vulnerable situations (poverty, disaster, communal violence) - Family counseling and family therapy - Skills and techniques of working with families - Family enrichment programmes.

#### **Module:4** | Family Welfare Programmes

6 hours

Family welfare programmes in the areas of health education housing and employment. Development services to strengthen the family, socio-economic programmes; family welfare agencies, counselling and guidance institutional services. Demographic problems and population control Family Planning Programmes and role of social worker in relation to family planning.

#### **Module:5** | Child Development

6 hours

Child Development: Issues and Challenges - Child development: concept, philosophy and historical context - Demographic state of children in India: health, education, protection -Early childhood care and development, Child rearing practices and implications.

#### Module:6 | Children and Policies

7 hours

Vulnerable children: policy and social work response - Children in difficult circumstances: caste, disability, poverty, migration, orphaned, trafficked, in prostitution, abuse - Legislative measures and programmes for child protection - Social work role and response to children in need of care and protection - Child centric counselling, therapy, skills and techniques in working with children - Child Rights, Constitutional provisions, Policies and legislations for child well-being.

#### **Module:7** Role of Social Worker in Child Care Settings

6 hours

Foster Care – Residential Care – School Social Work – Adoption – Juveniles home – Children with disabilities.

PSWK206L	Sustainable Community Development		3	0	0	3
Pre-requisite	Nil	Syll	labu	IS V	ersi	on
		v. 1	0.			

- 1.To understand the working concept of sustainable community development at the micro, mezzo, and macro levels
- 2.To prepare to play an active participatory role in community sustainable planning and development
- 3.To study the interconnectedness of Sustainable Community Development

#### **Expected Course Outcomes**

- 1. The learners will have interdisciplinary knowledge on various concepts such as community development, Sustainable Development, SDGs
- 2. Learners will have an understanding of how communities can adapt in the movement towards sustainability at a local and regional level
- 3. Create a sense of responsibility in addressing sustainable goals in developing a better society.
- 4. Understand the relationships among the concepts of environmental, economic, social inequality and social Sustainable Development
- 5. Explore the values and principles shaping current thought in the field of community change and development
- 6. Identity the dynamic forces shaping communities; describing the role government, the private sector and non-governmental organizations play in the community sustainability process

#### **Module:1** Introduction to Sustainable Community Development

7 hour

Urban and Rural Sustainability - UN Millennium Development Goals - SDGs in Development – Human rights and social justice (please think about this, can be made in separate module).

#### **Module:2** | Community Engagement Development

7 hours

Concept and definition of Community Engagement - Role and need of community participation – Community strength – community meeting - Community partners - Community Empowerment - partnerships with municipalities - Community coherence.

#### **Module:3** | Economic and Social Concern

5 hours

Economic issues - Community Economic Development - the new Economy - technological **innovation** - disruptive technologies (this part can be in tech. sustainable dev.). Social issues – poverty – Education - health - inequality – gender gap - planning - development in urban and rural environments - community resilience - cultural competence - social responsibility.

#### **Module:4** | Environmental Concern

7 hours

Ecosystem - Biodiversity - Climate change - Renewable energy and non- renewable energy - Environmental degradation - Concept of Biofuel - Agriculture and Food Supply - environmental protection - Preserving natural resources for future generation.

#### **Module:5** | Role of Stakeholders

5 hours

Role of Government - private sector - role of public-private partnership - non-governmental organizations: Policy makers - Social Activist - Community planner in urban and rural.

#### **Module:6** | Contribution of Technology

5 hours

Contribution to social development - learning new skills - building community links - creating low crime environment - raising standard of income - improving quality of life. Contribution to Economic development - employability - sustainable local green economy. Contribution to Environmental development - nurturing biodiversity - Promoting native vegetation - preserving ecological network.

#### **Module:7** Best Practices

7 hours

Best practices in Waste Reduction - Water Treatment, waterside management, rainwater

har	rvesting- Pollution Control - Energy Conservation - Agriculture, Irrigation and Food su	upply -
Gre	een Space - Crop Rotation.

Mode of Evaluation: CAT / Quiz / Digital Assignments / FAT.

Recommended by Board of Studies 26.05.2022

Approved by Academic Council No. 66 Date DD-16.06.2022

Course code	Course Title		L	T	P	C
PSWK209L	Psychiatric Social Work		3	0	0	3
Pre-requisite	Nil	Syll	labu	IS V	ersi	on
		v. 1	.0			

- 1. To appraise the concepts of normal and abnormal behaviours as well as the factors contributing mental health issues
- 2. To understand familiar psychiatric case assessments, symptoms and systems of classifications
- 3. To Understand Psychiatric social work and its practice in various settings

#### **Expected Course Outcomes**

Students will be able to

- 1. Gain insights into the basic conceptual knowledge about psychiatric disorders
- 2. Comprehend the assessments in Psychiatry
- 3. Acquire an in-depth knowledge of Psychiatric Illness and their Management
- 4. Understand the Psychiatric Social Work Interventions and Rehabilitation
- 5. Gain insights about team work and rehabilitation.
- 6. Develop awareness of Laws and legislations in Psychiatric Social Work setting

#### **Module:1** | Mental Health

5 hours

Concepts of normality- Abnormality- Mental health and mental/psychiatric disorders - Etiology of psychiatric disorders: biological, psychosocial, cultural -Predisposing, precipitating, protective and perpetuating factors - Determinants of mental health.

#### **Module:2** | Assessment in Psychiatry

5 hours

Psychiatric Interviewing - Case history recording and mental status examination - Techniques of Psychiatric Interviewing - Symptomatology: Appearance and behaviour, Thinking, Speech, Perception, Mood and Affect, Cognition, Judgment and Insight – Psycho social assessment and Social Diagnosis.

#### **Module:3** | Psychiatric Illness and their Management

10 hours

Current classification in psychiatry: ICD 10 and DSM V - Prevalence, etiology, clinical manifestation, course and management of: Organic mental disorders (Delirium, Dementia, Alzheimer's) - Developmental Disorders: Learning disorders and Autism - Attention Deficit Hyperactive Disorder - Schizophrenia and other psychotic disorders - Mood disorder - Unipolar disorder & Bipolar disorder - Depressive disorders - Anxiety Disorders: Generalized Anxiety Disorder, Obsessive Compulsive Disorder, Simple specific phobia, Panic Disorder - Stress Related- Adjustment Disorder: Acute Stress Disorder - Post Traumatic Stress Disorder - Somatoform Disorders - Eating disorders - Sexual Dysfunctions - Substance related and addictive disorders - Personality disorders.

#### **Module:4** | Psychiatric Social Work Intervention

5 hours

Importance - Historical development of psychiatric social work - Functions and roles of psychiatric social worker - Problems and prospects of psychiatric social work in India - Scope of Psychiatric Social Work Interventions:Individual factors - Family - Marital factors - Societal/Community factors.

#### Module:5 | Team work and Rehabilitation in Psychiatric Setting

6 hours

Concept of team work - Role of different professionals in team work - Modalities of team work - Factors essential for team work - Psychiatric Rehabilitation – Definition -Types - Principles - Role of day cares - Half way homes in the after care of psychiatric patients - Role of care givers - Community based rehabilitation.

#### **Module:6** | Functions of various Psychiatric Centres

6 hours

General Hospitals - Mental Health Centers - Child Guidance Clinic - Family Counselling Centers - De-Addiction centers - Geriatric Centers - School Mental Health Programme.

Module:7   Community Psychiatry	6 hours
Prevention in Psychiatry - Primary, Secondary and Tertiary level - Stigmatization	- National
Mental Health Programme and District Mental Health Programme - Laws and legislatio	ns: Mental

PSWK212L	Human Resource Management		3	0	0	3
Pre-requisite	Nil	Syll	abu	s ve	rsio	n
				1.0		

- 4. To introduce basic concepts of human resource management.
- 5. To impart knowledge and skills related to different functions of HR.
- 6. To apply HRM tools and techniques for organizational development.

#### **Expected Course Outcomes**

Upon successful completion of the course students will be able to

- 1. Explain basic concepts of human resource management.
- 2. Plan human resource requirements of an organisation.
- 3. Design and develop talent management programmes.
- 4. Administer and assess employee training and development using HRM tools.
- 5. Analyse and implement performance and compensation management strategies.
- 6. Demonstrate professional HRM skills and Competencies.

#### Module:1 Human Resource Business Environment

7 hours

Concept of HRM. Evolution of HRM: Personnel Management, HRM, Human capital, Strategic HRM and HROD. Difference between business partner (BP) and people partner (PP), Objectives of HRM, Organizational vision and mission and Organizational structure. Line and Staff functions, HR philosophy and HR policy. Functions of HRM, Workforce demographics and diversity trends. Global business environment, Technology and HR, Algorithms and Artificial Intelligence in HR. Role of HR in Gig economy, HRM and Sustainable development - Ethical issues in HRM.

#### Module:2 Human Resource Planning

5 hours

Linking organization strategy and human resource planning - Determining demand and forecasting - Human resource inventory - Job analysis, Methods for job analysis, Job description, Job specification and Job evaluation - Job design- Job enlargement and Job enrichment - Hard Vs Soft HR planning.

#### Module: 3 Acquisition and Talent Management

6 hours

Concept of recruitment: Sources of recruitment - Internal and External sources - Recruiting diverse workforce - The New extended workforce - Offshoring and Outsourcing - Executive recruitment - Difference between recruitment and selection - Selection - Employee testing, Types of tests, Interview - Types of interviews - Background investigations.

#### Module:4 Learning and Development

5 hours

Orientation and On boarding of new employees - Conducting training need analysis - Designing the training programme - Developing the programme - Implementing the training programme - Methods of Training (On the Job and Off the Job) - Team Training - Internet Based Training - Virtual Classrooms - Management Development Programme - Training Evolution.

#### **Module:5** Performance and Career Management

6 hours

Performance appraisal process - Defining the employee's goals and performance standards - Methods of performance appraisal - Managing appraisal interview or discussion - Performance management - Employee engagement - Managing employee turnover and retention - Career management - concepts, employee's role and employer's role in career management - Methods in career management - Employee - Life cycle career management - promotion, transfer and retirement.

#### **Module:6** Compensation of Human Resources

7 hours

Aligning total rewards with strategy; Determinants of compensation patterns (Legislations, Job evaluation, Bench marking and Survey components of pay structure) - Incentive pay - individual, group and organization — Performance based pay and competency-based pay - Equity and its impact on pay rate - Benefits - concepts, statutory and non-statutory - Insurance and retirement benefits - Rewards - concepts and types - Executive payment and Expatriate payment.

		1.0				

- 1. To gain foundational knowledge on organization and organizational behaviour.
- 2. To investigate behavioural impact of individuals and groups on organisation.
- 3. To apply OB theories, tools and techniques to improve organization's effectiveness.

#### **Expected Course Outcomes**

Upon successful completion of the course students will be able to

- 1. Develop conceptual understanding of organizational behaviour.
- 2. Assess individuals' personality types and its impact on work, human relations and organization.
- 3. Study group dynamics, perceptions and decisions and its influence on organizational performance
- 4. Evaluate employee's motivation levels and make interventions accordingly.
- 5. Design, develop, implement and evaluate leadership and teambuilding Programmes.
- 6. Optimise organizational effectiveness based on the results of studies.

#### Module:1 Organizational Behaviour

6 hours

Concept of OB - Disciplines that contribute to the OB Field - Challenges and Opportunities for OB - Responding to Globalization, Managing workforce diversity, Improving people skills, Stimulating Innovation and Change - Creating Positive Work Environment - Biographical Characteristics in OB.

#### Module:2 Personality, Attitude and Values

5 hours

Concept of Personality - The Myers-Briggs Type Indicator, The Big Five Personality Model and Sixteen Personality Factor- Psychometric scales and its applications - Person-Job Fit Person-Organization Fit - Main components of Attitude - Job Satisfaction and Causes of job satisfaction - The Importance of Values - Terminal Vs Instrumental Values - Generational Values.

#### **Module:3** Perception and Decision Making

6 hours

Factors that influence perception - Attribution theory - Frequently used shortcuts in judging others - Decision Making: The Rational model, Bounded rationality and Intuition - Common biases and errors in decision making - Individual differences in decision making and Organizational constraints.

#### **Module:4 Motivation and Emotional Intelligence**

7 hours

Early theories of motivation: Hierarchy of Needs theory, Theory X and Theory Y, Two factor theory and McClellan's theory of Needs - Process theory of motivation: Vroom's Expectancy theory of motivation and The Porter - Lawler model - Contemporary theories of motivation: Equity theory Emotions and Moods - Basic emotions, basic moods – positive and negative affect, functions of emotions - Emotional Intelligence - Self-Efficacy - Job Satisfaction - Organizational Commitment - Organizational Citizenship Behaviour (OCBs) - Quality of work life.

#### Module:5 Work Teams, Communication, Power and Politics

7 hours

Meaning of a group and group dynamics - Group think and Conformity problem - Types of Teams: Problem solving team, Self- managed teams, Cross-functional teams and Virtual teams - Social Networks - Functions of communication - communication process -Direction of communication - Interpersonal communication and Organizational communication - Barriers to communication - Power - bases of power; Organizational politics - Causes and consequences of political behaviour.

#### Module:6 Leadership, Conflict and Negotiation

7 hours

Concept of leadership - Behavioural theories: Ohio state studies, University of Michigan studies and Trait theories - Contingency theory: Fiedler model, Hersey and Blanchard's situational theory and Path - goal theory - Leader - Member Exchange theory - Vroom and Yetton's leader -participation model - Conflict: The traditional view of conflict, The Human Relations view of conflict and The Interactionist views of conflict - The conflict processes - Negation - Bargaining strategies, The Negotiation process.

- 7. To describe various concepts in learning and development.
- 8. To identify the training gaps at various levels in the organization.
- 9. To design and implement training programmes for talent development and management.

#### **Expected Course Outcomes**

Upon successful completion of the course students will be able to

- 1. Develop understanding of the concepts, processes and practices in learning and development.
- 2. Carry out Training Needs Assessment.
- 3. Design and develop training content and programmes.
- 4. Implement On-the Job and Off-the Job Training Programmes.
- 5. Emphasize the need and role of technology in upskilling.
- 6. Ensure training and development contribute to the organizational competitiveness.

#### **Module:1** The Context for Training and Development

6 hours

Human Resource Development - Defining Terms: Training, Education, Development, learning and HRD - Strategic HRD - Learning Objectives - Hard and Soft HRM - Scanning external and internal environment for learning - The concept of learning organization and Organizational learning culture - The concepts of Single -loop learning and double-loop learning, Reskilling, Upskilling and Reverse mentoring or Upward mentoring.

#### **Module:2** | Training Need Assessment

5 hours

Organizational analysis - Methods of organizational analysis - Occupational (Task) analysis - Person analysis - Components of person analysis - Performance appraisal in the person analysis process - Developmental needs - The Employee as a source of needs assessment information - Participation in the prioritization process.

#### **Module:3** Designing Training

6 hours

Defining the objectives of HRD intervention - The Make Versus Buy decision - Selection of Trainers - Internal and External Trainers - Train the Trainer Programme - Preparing a Lesson Plan - Selecting the training methods and medium - Preparing training materials - Programme announcements - Programme outlines - Training Manuals or Text books - Scheduling the programme - Registration and Enrolment issues - Training Budget - Training Calendar.

#### **Module:4** Training and Development Methods

7 hours

Training delivery methods: On the Job Training Methods (OJT), Off-the Job Training Methods - Employee Coaching and Mentoring - Self-Paced or Computer based training - E-Learning and Methods - Corporate Universities - Arranging physical environment - Training Implementation.

#### **Module:5** Training Evaluation

7 hours

Purpose of training evaluation - Evaluation of Training and Development programme prior to purchase - Changing the evaluation emphases - Models and Framework of Evaluation: Kirkpatrick's Evaluation Framework, Philip's ROI model and CIRO model - Designing tools for data collection and Analysis - Training Process Audit and Report writing.

#### Module:6 Career Development and Management Development

7 hour

New employment relationship - Concept of Career Development - Career Planning and Career Management - Traditional models of career development - Life stage and Career models - Individual's role and Manager's responsibility - Developing career motivation - Self-Assessment tools and activities - The Concept of MDP - Managerial Competencies - Globally Competent Manager - Management Development strategies - Leadership Training - Behaviour Modelling Training.

#### Module:7 Digital Learning & Artificial Intelligence

5 hours

Digital Transformation in HR - Digital Employee engagement and experience - Utilizing Virtual Reality and

	gmented Reality in train

Course Code	Course Title	I	T	P	C
PSWK215L	Compensation and Performance Management	3	0	0	3
Pre-requisite	Nil	Syllabus version			n
		1.0			

- 1. To explain the need and importance of compensation management in organizations.
- 2. To evaluate jobs to determine the compensation structure.
- 3. To conduct performance appraisal and manage the talent pool.

#### **Expected Course Outcomes**

Upon successful completion of the course students will be able to

- 1. Describe factors determining pay structure.
- 2. Compare industries through pay survey to determine compensation.
- 3. Identify employees' needs for designing benefit programmes.
- 4. Design, develop and administer performance appraisal tools.
- 5. Build high performing teams by implementing performance management system.
- 6. Develop strategies to retain and manage organizational talents.

#### **Module:1** Compensation Strategies

6 hours

Types of compensation - Compensation responsibilities - Compensation philosophies - Components and objectives of organizational reward system - Total Rewards approach - Competency based pay - Strategic integration of compensation plans and business plans - Determinants of pay structure and level - Labour market conditions, legislation, Collective bargaining and Managerial attitudes and the ability of Organisations to Pay - Pay fairness - procedural and distributive justice.

#### **Module:2** Development of Compensation System

6 hours

Job evaluation - Methods of job evaluation - Pay surveys - Pay structure: different pay structures, Establishing pay grades, Broad banding, Pay ranges, Individual pay, Rates out of range and Pay compression - Pay adjustment matrix, Seniority, Cost-of-living Adjustments (COLA), Lump Sum Increases - Variable pay: Individual incentives, Group and Team based variable pay and Organizational Incentives - CEO and Executive Compensation - Expatriate Pay. Case study – Sundar Pichai (Google), Satya Nadella (Microsoft) and Aravind Krishna (IBM).

#### **Module:3** | Managing Employee Benefits

6 hours

Goals for benefits - Benefit need analysis - Funding benefits - Strategy in the design of benefits programme - Types of benefits: Statutory benefits and non-statutory benefits - Security benefits - Employee compensation, Unemployment compensation, Severance pay - Retirement benefits - Pension plans - Other benefits - Relocation benefits, insurance benefits, educational benefits - Time-off benefits. Benefits administration - Flexible benefits.

#### **Module:4** The Foundations of Performance Management

6 hours

Concept of Performance Management - Objectives and benefits of Performance appraisal - Principles of performance management - Performance management model - Performance management sequence (Cave and Thomas) - Performance management process - Relevance of performance criteria, Potential performance criteria problems, and Performance standards - Classification of measures - Performance measurement issues - Competence and Competency analysis.

#### **Module:5** Performance Appraisal Methods

7 hours

Difference between Appraisal and Review - Traditional methods of appraisal: Rating scale, Narrative method, Ranking method, Paired comparison, Critical incident method, Confidential report system, Graphic rating, Forced distribution (Bell Curve). Modern methods of appraisal: 360-degree feedback method, Behaviourally Anchored Rating Scale (BARS), HR Accounting Method, Management by Objective (MBO), Assessment centre method. Designing appraisal forms, Common rating errors and Performance monitoring. DSMC/ATI Performance improvement model.

Course code	Course Title	L T P C
PSWK101F	Field Practicum - I	0 0 0 6
Pre-requisite		Syllabus version
		v. 1.0

- To understand the theoretical perspectives of social work during observation visits through an understanding of their vision, mission, goals, structure and functions moreover focus on learning the impact made by the organisation in the lives of people;
- To execute casework, group work and community work interventions to enhance people's self-help capacity by applying knowledge, skills, values and principles of Social Work by simultaneously analysing the socio-economic situation of families and support their journey towards self-reliance
- To build on-field experience to propose new models through collective sharing of field examples to integrate theory and practice with the pride of becoming a social worker.

## **Expected Course Outcome:**

- Remember and relate the Professional Social Work principles, values and knowledge learnt in class with the Agency and Community setting during Field Work.
- Demonstrate professionalism through observation, documentation, analysis and presentation skills and active participation in classroom discussions.
- Apply the knowledge, skills, values and principles of Professional Social Work in fieldwork
  practice by planning and implementing appropriate casework, group work and community
  work plans.
- Analyse the group and community dynamics while implementing the action plan.
- Build rapport with people in the community and clients of group work and casework, smoothly implement the intervention and organise community events.
- Periodically evaluate the course of action with the clients and community members, create mechanisms to assess their process and systematically document the work.

General Guidelines 180 hours

- 1. Skill labs: Self-awareness, effective interpersonal communication for all students
- 2. 'Street Theatre training' workshop conducted for awareness
- 3. Training on the creation of posters, short videos and audio messages for campaigns
- 4. There will be at least five observation/exposure visits to different pre-identified agencies by all students along with their faculty members.
- 5. Those agencies working with people with special needs (Children, People with disabilities) and the projects of Corporates under CSR (village adoption/improvement initiatives)
- 6. For concurrent fieldwork, social work trainees reach out to the families, groups and individuals through the different institutions and carry out by the guidance of faculty and field supervisor.
- 7. During the placements, students work with three individuals (casework), one group work and organise one community-based event.
- 8. As per the need, students may engage in online campaigns/events as guided by their supervisors.
- 9. Regular reporting and weekly conferences give direction to students. They prepare and

- submit consolidated reports by the end of the semester for end semester external examination.
- 10. Report writing, timely submissions, presentation, sharing critical reflections and Participation in discussions are part of continuous internal assessment.

Mode of Evaluation: Continuous Assessment of the Field Practicum—Reports and Conference with Faculty and Field Supervisor - Consolidated report. Internal assessment 60 marks and External assessment 40 marks.

External assessment 40 marks.			
Recommended by Board of Studies	30-06-022		
Approved by Academic Council	No. 64	Date	15-07-2022

Course code	Course Title		L	T P	C
PSWK102F	Field Practicum - II				6
Pre-requisite		Syllab	us	ver	sion
		1	z. 1	.0	

- To understand the outreach role of Non-Governmental Organizations /Local Governments in the lives of people to reach out through social work methods.
- To apply the knowledge and experiences to plan and execute interventions aligning with the field/agency requirements.
- To create and implement a detailed action plan for rural camps with assigned tasks through respective committees to take care of different roles and functions.

# **Expected Course Outcome:**

- Discuss and evolve action plans to work with individuals, groups, families and communities through social work intervention and campaigns, to proactively support the NGO/Local government.
- Design key messages to influence policy or better implementation of the policy to ensure lasting impact
- List the tasks, roles and responsibilities and form committees to organize rural/tribal camps.
- Schedule rural/tribal camp days with clearly listed goals and objectivities, activities and budget.
- Review daily experiences through feedback and critical questions. Evaluate the overall
  experience formulate a follow-up plan for the actions carried out along with
  recommendations.
- Build and enhance skills in planning, managing and implementing and collaboration.

## General Guidelines 180 Hours

- 1. Students will be placed in local Self-government institutions, welfare agencies, development organizations, the criminal justice systems, civil administration centres, hospital settings, NGOs and so on
- 2. Students will participate in the activities as recommended by their agency and share their reports and make presentations periodically with the agency towards course correction and future action
- 3. Social work trainees make a detailed plan for their camp with the guidance of their faculty accompanying them to the camp.
- 4. They make detailed plans including budget, formation of various committees and allocation of roles and responsibilities. after electing a camp leader
- 5. Through week-long stay together, students learn to live as a group with limited resources.
- 6. The rural/tribal camp sensitizes students to rural/tribal realities and enables them to understand the challenges of living in the rural/tribal areas.
- 7. During their camp, students visit the community and interact with the people in the community
- 8. Students learn to use participatory techniques such as resources mapping to understand the systems in the village / tribal hamlet
- 9. Students also visit Governmental and Non- Governmental Organisations working in the location to better understand the interventions made by the organisation in the village/tribal hamlet
- 10. Students learn to better appreciate living as a group with limited resources and build good interpersonal relationships through cooperation and collaboration

Mode of Evaluation: Continuous Assessment of the Field Practicum–Reports, Camp Reports,				
Feedback and Evaluation. Conference	Feedback and Evaluation. Conference with Faculty and Field Supervisor. Consolidated report.			
Internal assessment 60 marks and Exter	rnal assessment 40	marks.	_	
Recommended by Board of Studies	30-06-2022			
Approved by Academic Council	No. 64	Date	15-07-2022	

Course code	Course Title	L	T	P	C
PSWK103F	Field Work – III				6
Pre-requisite	Nil   Syl	labı	IS V	ersi	on
	v. 1	0.			

- To facilitate students' contextual understanding in their fields of specialisation so that they can enhance their analysis, research and administration skills to apply effectively the methods and values of Social Work in their respective field settings
- To build professionalism in Social Work practice through the values, principles, ethical standards and systematic documentation for working with individuals, family, community and related agencies and be able to link needs and resources through strategic networking and resource mobilization
- To create and deliver innovative plans through the new knowledge, strategies and recent trends from the study tour through the exposure gained visiting a wide range of organizations across specializations in different parts of the country

#### **Course Outcomes**

n completion of this field work the students will be able to:

- Demonstrate good analysis of the field work settings; the right methods to apply when working with individuals, groups, families and communities applying the values, principles and ethics of Social Work
- Distinguish quality of interventions through the strategic networking for resource mobilization, specialized intervention with systematic documentation and plan for follow-up and reporting
- Evaluate the scenario and proactively put in place systems and referrals for sustainable action and impact with the belief in the self-help capacity of people and communities.
- Draw connections through the visits to a range of institutions so as to learn the relevance of their intervention and impact so as to individually or collectively design future action in the field
- Discuss and appraise the structure, focus, styles and patterns of functioning of different institutions
- Prepare professional reports, presentations and models from the visits to share with the team and department and simultaneously draw lessons to impact future course of action

General Guidelines 180 Hours

- 1. A theme will be identified and relevant organizations and location will be chosen for study visit. The visit/tour can be completed within/outside the state.
- 2. The study visits will be arranged and planned by the students with support from the faculty members.
- 3. Minimum of five organizations need to be visited and the duration of the visit shall be 12 days. Students will be required to write detailed reports for each organization visited.
- 4. Based on the area of specialization, students will work with pre-identified hospital settings or community-based organizations for a period of 12 days. A minimum of four organizations will be chosen for the field work.
- 5. The settings where students are placed for concurrent field work will have competent field supervisor who could guide and give direction to their work
- 6. Students will apply the methods, skills and values of social work and in addition, they apply their research and administration skills. They learn to write effectively to tap resources so as to link resources and needs
- 7. Study tour and concurrent field work sharpens their knowledge, values and skills and enhances their professionalism
- 8. Study tour/visits are compulsory and they will be considered as a part of the fieldwork.

Absentees for a particular visit sh	ould complete the	e visit to the same	agency on their own
arrangement before the completion	of the study visit p	period.	
Mode of Evaluation: Continuous Asses	ssment the Field F	Practicum – Reports	and Conference with
Faculty and Field Supervisor. Cons	solidated report	with two external	examiners. Internal
Assessment 60 marks and External Ass	essment 40 marks	).

PSWK298J	Summer Internship	0	0	0	2
Pre-requisite	S	yllab	us v	versi	on
	V	. 1.0			

- To understand the ideas and concept of addiction
- To integrate theory and practice in practitioner-setting with exposure to the day-to-day operations
- To select the possible topics from actual practitioner experience for future research through

#### **Course Outcomes**

n completion of this internship the students will be able to:

- Explain the models and interventions
- Attain required skills set needed to practice in different settings
- Demonstrate direct social work practice as a professional

General Guidelines One Month

- 1. At the end of the first year, students are placed in an institution for a summer internship for one month.
- 2. Students receive an opportunity to put to use their learning while gaining from direct practice.
- 3. Students expand their research horizons through practitioner experience to add value to their upcoming research projects.
- 4. Preferable settings: NGOs, Hospitals, Occupational Therapy Center, District Social Welfare Office, Rural Development Office, Urban Development Office, CSR Projects, Government Institutions and International NGOs

Mode of Evaluation: Periodical Assessment/Final Report and Viva Voce.

Internal assessment 60 marks and external assessment 40 marks.

Approved by Academic Council No. 66 Date 16-06-2022

Course code	Course Title		L	T	P	C
PSWK299J	Research Project and Internship					22
Pre-requisite		Syll	ab	us v	ers	ion
		v. 1	.0			

- To understand the application of social work research by recalling research methodology, tools, techniques in the actual undertaking of a research study with faculty guidance
- To author research report, going through each stage of research: Identifying research problem, the review of literature, data collection, consolidation, interpretation, using statistics as appropriate, adding key findings and presenting enlisting suggestions and recommendations
- To demonstrate professionalism in the agency of placement for intensive field training (Internship) to reinforce further learning through observation and practice of different methods of social work in dedicated internship mode

#### **Course Outcomes**

n completion of this course the students will be able to:

- Compare and contrast the different research designs and methods. Organize, analyse and interpret the data to provide meaningful findings and recommendations to draft a comprehensive report
- Execute independent research in a systematic manner by applying the research expertise to come up with baseline, midline and end-line studies in any project
- Design projects based on research-based evidence and conduct campaigns and advocate for policy change powered by strong research
- Apply the knowledge on different organizations, the experience of using Social Work methods abiding by the principles, values and ethics of social work to fulfil the expectations outlined by the organization
- Identify and apply personal strengths aligning with the organizational requirements to enhance professional enhancement during Internship
- Develop and demonstrate thorough professionalism in the documentation and timely submission of reports and presentations —in sharing and receiving feedback by active participation in discussions

General Guidelines One Semester

- 1. With the guidance of the research supervisor, students identify the research problem and fix the title of the Study. They then draft the Need and significance of the study along with the Objectives of the study
- 2. The Research methodology including the field of study, sampling design, Research design, Tool for data collection are fixed. After the pre-test, the tools are finalized and data collection carried out in online / personal mode. Students then carry out the Data Analysis and apply statistical tools as needed
- 3. The major findings of the Research emerge as the data is tabulated, presented and interpreted and then the summary & conclusion of the study are presented along with suggestions and recommendations
- 4. The Internship is an intensive field training in select agencies to hone professional social work skills and values wherein trainees get opportunity to learn by doing and observing as unpaid staff of the agency.
- 5. Students make real, meaningful contributions during Internship. Along with the opportunity to learn the day-to-day functioning of the setting by working there, students may contribute through specific tasks in research, communication, capacity-building, resource mobilization, Campaign and advocacy areas of the organization or institution.
- 6. The students can opt either research work or internship.

Mode of Evaluation: Research Internal Assessment 60 marks and External Viva Voce 40 marks - Internship: The daily report and consolidated report of the social work trainee reviewed by the field and faculty supervisors evaluated. Internal Assessment 60 marks and External Assessment 40 marks.
