

Webinar on “Use of laboratory animals for biomedical research” on 30 Jan 2021

The **School of Biosciences and Technology**, Vellore Institute of Technology (VIT) and **Gentech Marketing & Distribution Pvt. Ltd.** cordially invites you for joining in a one-day webinar on the “Use of laboratory animals for biomedical research”. This webinar envisages online training for students as well as staff in the proper care and scientific use of laboratory animals. All sessions are delivered by the experts in the field; with the aim of conducting *in vivo* investigations with the latest tools in laboratory animal research (please refer to the attached list of equipment).

Registration Link: <https://forms.gle/AHJ9vGHaEsyetphx9>

30 January (Saturday)
Registration required!

9.30 to 9.45 AM = Welcome address by Prof. Kavitha Thirumurugan, VIT

9.45 to 10.00 AM = Inauguration by Prof. V. Pragasam, Dean, School of Bio Sciences and Technology, VIT

10.00 to 10.45 AM = *Origin and principles of GLP in small animal house* by Prof. Sadashivan Pillai

11.00 to 11.45 AM = *Anaesthesia and analgesia in research animals* by Prof. Ramesh Srinivasan

12.00 to 12.45 PM = *Strategies for monitoring behaviour & physiology of lab animals* by Dr. Anita Talwar

.....Lunch Break.....

2.00 to 4.00 PM = Techniques & applications of animal research equipment by Gentech Mkt. & Dst. Pvt. Ltd.

4.00 to 4.15 PM = Vote of thanks by Sajan George, Veterinarian, small animal house, SBST, VIT

4.30 to 5.00 PM = QUIZ TIME for students (examinees should secure 60% marks for obtaining certificate)
